

Hibiscus Luna™

- Plant in Sun  (at least 6 hrs of sun)
- Space 24-36" (61-91cm) apart
- Grows 24-36" (61-91cm) tall by 24" (61cm) wide
- Thoroughly water plant in fall to prepare for overwintering. Cut back to the ground once the foliage has completely died in the fall or in early spring before they emerge. One of the last perennials to appear in the spring as warm soil temperatures are needed.

(Cut along dotted line for standard bench card size.)
