Archangel™ Series Angelonia

- The biggest blooms of any angelonia series!
- Thrives in extreme heat, humidity and drought; uniform habit and flowering time for easy, high-density production.

Angelonia angustifolia 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 10 to 12 in. (25 to 30 cm)

USDA Zone: 10 to 11

NEW Archangel Coral

First in this color class!
Vibrant, bright coral color holds its beauty in all climates and conditions, plus it has a great habit that matches Blue Bicolor.

MegaCopa™ Series Bacopa

- Notable for its well-branched, controlled habit and improved heat performance.
- Largest flower size in the industry, with showy blooms that cover the plant, driving impulse sales at retail.

Sutera cordata 🌞

Height: 4 to 6 in. (10 to 15 cm)

Spread: 12 to 18 in. (30 to 46 cm)

USDA Zone: 9 to 10

NEW MegaCopa Pink Improved

Offers better garden performance than original Pink.

NEW MegaCopa Pink Shine

Provides garden performance to match Pink Improved.

NEW Versa™ Series Bacopa

- Semi-upright sutera doesn't tangle when grown pot tight in a quart.
- Hides older flowers better than other varieties and has more flower coverage in a smaller container.

Sutera cordata 🌞

Height: 4 to 6 in. (10 to 15 cm)

Spread: 12 to 18 in. (30 to 46 cm)

USDA Zone: 9 to 10

NEW Versa Blue

NEW Versa Pink Shine

NEW Bee Happy™ Series Bidens

- This series is 25 to 35% more vigorous than compact Bee Alive, but not quite as vigorous as Bee Bold.
- Features an upright habit, and the plants can be grown closer together with less spacing; easier to control with less PGRs.

Bidens ferulifolia 🌞 🌧️

Height: 10 to 14 in. (25 to 36 cm)

Spread: 18 to 24 in. (46 to 61 cm)

NEW Bee Happy Orange

Great habit that's well-matched to NEW Red Improved.

NEW Bee Happy Red Improved

Red bicolor bidens offers a great improvement on habit and branching compared to original Bee Happy.

Cabaret® Series Calibrachoa

- Super-uniform in habit and flower timing, so you can mix all colors in the series.
- Most varieties flower with an 11-hour day length, and stay open and in flower under low light conditions – a big plus at retail.
- All are early flowering varieties, similar to Golden Yellow.

Calibrachoa hybrida 🌞

Height: 6 to 10 in. (15 to 25 cm)

Spread: 10 to 12 in. (25 to 30 cm)

NEW Cabaret Bright White

NEW Cabaret Diva Orange

Brings an interesting chameleon pattern to the series.

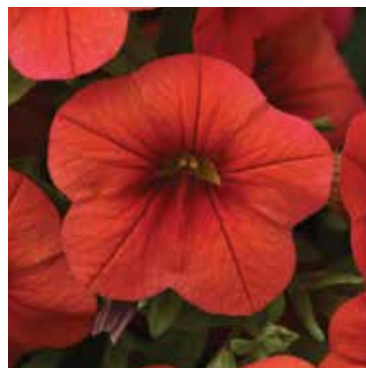

NEW Cabaret Good Night Kiss

Novel pattern features a star center.

NEW Cabaret Light Pink Kiss Improved

Features a larger flower than the original genetic.

NEW Cabaret Orange Improved

Holds its orange color at a much higher pH compared to original Orange and all other genetics on the market.

NEW Cabaret Pink Improved

NEW Cabaret Red

Has a larger flower than Bright Red and flowers earlier.

NEW Cabaret Rose Improved

Has a larger flower and roots faster than original Rose.

Can-Can® Series
Calibrachoa

- One-of-a-kind colors and strong vigor for full-bodied mixed containers.
- Flowers stay open under the lowest light conditions – looking fresh at retail!

Calibrachoa hybrida ☀

Height: 10 to 15 in. (25 to 38 cm)

Spread: 10 to 15 in. (25 to 38 cm)

NEW Can-Can
Bumble Bee Blue

Features a vibrant, unique bicolor pattern with large flowers and excellent heat performance. Habit matches Bumble Bee Pink.

Conga™ Series
Calibrachoa

- Naturally compact habit is perfect for pot-tight production and no PGRs needed.
- Excellent pH tolerance and profuse flowering – flowers one week earlier than Cabaret series.

Calibrachoa hybrida ☀

Height: 6 to 10 in. (15 to 25 cm)

Spread: 8 to 10 in. (20 to 25 cm)

NEW Conga Light Pink Star

Rose-pink blooms with unique star patterns.

NEW Conga Pink Star

Striking magenta-pink, star-patterned variety; habit matches other bicolors in the series.

NEW Heartbreaker Coleus

- Beautiful pink foliage pattern does not fade in the full sun!
- Matches Henna for habit.

Solenostemon scutellarioides 🌞 🌱 🌿

Height: 14 to 28 in. (36 to 71 cm)

Spread: 14 to 16 in. (36 to 41 cm)

NEW Heartbreaker

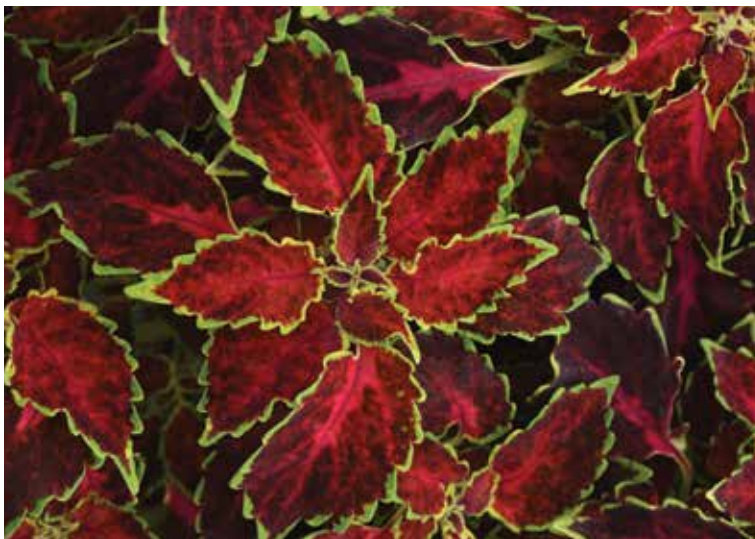

NEW Ruby Punch Coleus

- Unique, multicolored, fine-foilage coleus is sure to excite consumers and retailers.
- Compact habit allows for small pot production for growers and mixed container use for consumers.

Solenostemon scutellarioides 🌞 🌱 🌿

Height: 12 to 18 in. (30 to 46 cm)

Spread: 16 to 18 in. (41 to 46 cm)

NEW Ruby Punch

NEW Honeybells Cuphea

- This exciting new cuphea requires less special treatment due to high Oedema resistance.
- Honeybells offers faster rooting, which can lower rooting time and cost; can be produced at lower temperatures to reduce overall cost of Spring greenhouse production for growers.

Cuphea hybrida 🌞 🌱 🌿

Height: 10 to 12 in. (25 to 30 cm)

Spread: 14 to 20 in. (36 to 51 cm)

NEW Honeybells

Precision™ Series Geranium (Ivy)

- A medium-vigor, green leaf variety specially selected for early flowering and excellent uniformity.
- Oedema-resistant for clean foliage at retail and better show throughout the season; available as Genesis direct-stick cuttings.

Pelargonium x peltatum 🌞

Height: 10 to 12 in. (25 to 30 cm)

Spread: 14 to 18 in. (36 to 46 cm)

NEW Precision Red

Dynamo™ Series Geranium (Zonal)

- A medium-vigor, green leaf series that is a powerhouse among zonal geraniums: all the key colors you need in a uniform series.
- Matches for habit, flower timing and branching to ship all at once; available as Genesis direct-stick cuttings.

Pelargonium hortorum 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Dynamo Orange

Bright, vibrant orange variety with excellent garden performance compared to all other zonals on the market.

NEW Dynamo Pink Flare

Bright bicolor blooms with superior garden performance when compared to other medium, green-leafed zonal geraniums.

NEW Dynamo Red Improved

Larger flower size with a deeper color saturation.

Fantasia® Series Geranium (Zonal)

- A medium-vigor, dark leaf series, best suited to 5-in. (13-cm) and larger pots and hanging baskets.
- Excellent uniformity for more plants per sq. ft. and optimum shipping density; available as Genesis direct-stick cuttings.

Pelargonium hortorum 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Fantasia Dark Red Improved

Offers improved center branching and a shorter height. The genetic habit is a perfect match to Cardinal Red.

NEW Fantasia Fuchsia Berry

A bright, exciting new color for the series in a color class that does not exist in zonal geraniums.

NEW Fantasia Orange

A true orange addition with a great dark leaf habit that matches the series. Replaces Coral.

NEW Fantasia Pink Flare

Has been improved for shipment of quality unrooted cuttings. Replaces Strawberry Sizzle.

NEW Galaxy™ Series Geranium (Zonal)

- Replaces the Allure™ series. Mounded plants are vigorous enough to keep their large, semi-double blooms all season in large containers and landscapes.
- Superior garden performance compared to the competition, with a very controlled, vigorous greenhouse habit; available as Genesis direct-stick cuttings.

Pelargonium hortorum 🌞

Height: 16 to 20 in. (41 to 51 cm)

Spread: 16 to 20 in. (41 to 51 cm)

NEW Galaxy Dark Red

NEW Galaxy Pink

NEW Galaxy Purple

NEW Galaxy Red

NEW Galaxy Salmon

NEW Galaxy Violet

Features a bright, vibrant violet color with excellent branching compared to the competition.

NEW Galaxy Watermelon

A totally unique color in the geranium market, with exceptional branching and garden performance.

NEW Galaxy White

The first white on the market with interspecific-type garden performance! It features an excellent plant habit.

Fiesta™ Series Impatiens (Double)

- Elegant shade selection has the biggest, most fully double rose-like blooms.
- Excellent branching and uniformity mean fewer PGRs and less stretching.

Impatiens walleriana 🌈🌱

Height: 10 to 16 in. (25 to 41 cm)

Spread: 10 to 12 in. (25 to 30 cm)

NEW Fiesta Coral Orange

Matches the series in habit and flower timing, with a larger flower than Deep Orange.

SolarTower™ Series Ipomoea

- *The first-ever self-climbing Ipomoea!* SolarTower climbs very quickly and fills a large pot on a quick turn.
- Ideal for use with a trellis, as a topiary or on a vertical wall planting.

Ipomoea batatas 🌞

Height: 48 to 84 in. (122 to 213 cm)

Spread: 36 to 48 in. (91 to 122 cm)

NEW SolarTower Lime Improved

Features higher vigor to better match Black.

Bloomify™ Series Lantana

- *The first certified sterile lantana series on the market* won't go out of flower in the heat of Summer.
- Features better branching than the competition; two weeks later to flower than the Lucky series, with a nice ball-shaped habit.

Lantana camara 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 10 to 12 in. (25 to 30 cm)

NEW Bloomify Mango

Lucky™ Series Lantana

- Excellent branching means less pinching, fewer PGRs.
- Stands up to heat, drought and other stressful conditions; works well in small pots, baskets and mixed combos.

Lantana camara 🌞

Height: 12 to 16 in. (30 to 41 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Lucky Peach

Similar in habit and size to Pot of Gold. Has the most branching of any variety in the series.

Easy Breezy™ Series Lobularia

- Excellent branching and 2 to 3 weeks longer flowering in the heat.
- Features a non-split habit late in the production cycle for higher sell-through; requires less to no PGRs for reduced production costs.

Lobularia maritima 🌞🌱

Height: 10 to 12 in. (25 to 30 cm)

Spread: 12 to 16 in. (30 to 41 cm)

NEW Easy Breezy Purple

Serenity™ Series Osteospermum

- “Magic” colors change as flowers fully open; exceptional habit and uniform timing for early-season bench-run production.
- Well-suited to cool-season containers and landscapes: a full-season performer in coastal markets; available as Genesis direct-stick cuttings.

Osteospermum ecklonis 🌞

Height: 10 to 14 in. (25 to 36 cm)

Spread: 14 to 20 in. (36 to 51 cm)

NEW Serenity Coral Magic

There is not another plant on the market with a flower color to match! Similar habit to Pink.

ColorRush™ Series Petunia

- Very vigorous series is ideal for 12-in. (30-cm) and larger containers and baskets, as well as landscapes.
- Mounds of color hold up in the heat and rain; nicely matched habits make production planning easier.

Petunia x hybrida 🌞

Height: 10 to 12 in. (25 to 30 cm)

Spread: 24 to 36 in. (61 to 91 cm)

USDA Zone: 9

NEW ColorRush Merlot Star

Vigorous like Pink. High light and warm temperatures will produce more of the star pattern.

NEW ColorRush Purple

NEW ColorRush Watermelon Red

The most compact genetic in the series. Cold night temperatures make this variety more compact, and just as vigorous as Blue when grown under warm night and day conditions.

NEW ColorRush White

NEW Midnight Gold Petunia

- Unique, first-of-its-kind novelty color!
- Slightly more vigorous than the Double Wave Double Petunia series, and features huge double blooms that are great for hanging baskets.

Petunia hybrida 🌞 🌙

Height: 8 to 10 in. (20 to 25 cm)

Spread: 20 to 26 in. (51 to 66 cm)

NEW Midnight Gold

NEW Purple & Bloom Salvia

- 25% more compact than the leading competitor, and it is easy to produce, requiring less PGRs.
- This variety offers the same flower power and performance as Black & Bloom.

Salvia guaranitica 🌞🌱

Height: 40 to 48 in. (102 to 122 cm)

Spread: 36 to 48 in. (91 to 122 cm)

USDA Zone: 8 to 11

NEW Purple & Bloom

NEW Roman Red Salvia

- Has a more compact habit compared to the leading competitor's red, along with medium green foliage; this is the *only* vibrant red interspecific salvia on the market!
- More similar in habit and performance to Black and Bloom, with a semi-mounded habit.

Salvia splendens x darcyi 🌞🌱

Height: 28 to 34 in. (71 to 86 cm)

Spread: 28 to 36 in. (71 to 91 cm)

USDA Zone: 8 to 11

NEW Roman Red

Cadet Upright™ Series Verbena

- Flowers one week earlier than other upright verbenas on the market, with the most uniform habit across the series compared to the competition.
- Features the same heat performance as EnduraScape; proven superior Powdery Mildew resistance when compared to the competition.

Verbena peruviana 🌞🌱

Height: 8 to 10 in. (20 to 25 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Cadet Upright Violet Blue

Features a more uniform habit to match the rest of the colors in the series.

MixMasters™

- Color ignites in 22 new combos that rock!
- Thoroughly trialed and monitored to ensure consistency and efficiency.

LaRita™ Yellow Argyranthemum

- Early-flowering, uniform series is offered in a large variety of standard and novelty colors to brighten up gardens and containers.
- Offers excellent branching, and is suited for landscape use in cool coastal climates.

Argyranthemum frutescens 🌻

Height: 17 to 24 in. (43 to 61 cm)

Spread: 16 to 22 in. (41 to 56 cm)

NEW LaRita Yellow

Namid™ Series Bidens

- This one series fills all your bidens needs, with strong, well-branched varieties that provide controlled growth and long flower performance.

Bidens ferulifolia 🌻

Height: 6 to 8 in. (15 to 20 cm)

Spread: 12 to 20 in. (30 to 51 cm)

NEW Namid Compact Yellow 20

More compact than Bidens Namid Special Yellow by 20%. Replaces Namid Compact Yellow for bigger blooms and better branching. Very sensitive to PGRs.

MiniFamous[®] Neo Series Calibrachoa

- Uniform series features a five-day flowering window, semi-trailing habit and medium vigor.
- Offers large single blooms and NEW double blooms.
- Wide range of colors and bicolors.

Calibrachoa cultivars 🌞

Height: 8 to 12 in. (20 to 30 cm)

Spread: 12 to 15 in. (30 to 38 cm)

NEW Trixi[®] Double the Heat
NEW MiniFamous Neo Double
OrangeTastic Calibrachoa
NEW MiniFamous Uno Double
Red 20 Calibrachoa

NEW MiniFamous Neo Deep Orange

Replace your favorite orange calibrachoa with this new deep orange variety; does not fade in the sun.

NEW MiniFamous Neo Lava+Red Eye

The darkest, single orange bicolor in the Neo series. Offers superior Summer performance, while still maintaining a 10.5-hour daylength response in southern regions.

NEW MiniFamous Neo Light Pink

Light pink bloom with a lavender-blue lip makes this variety POP!

NEW MiniFamous Neo Light Pink+Eye 20

Tri-colored, with a light pink lip, a dark pink throat that goes almost black in higher light conditions, and a yellow eye.

NEW MiniFamous Neo Violet Ice

The replacement for Neo Violet+Eye brings that violet ice color to calibrachoa with a slightly different color and pattern.

NEW MiniFamous Neo Double OrangeTastic

Has the same flower size and pattern type as PinkTastic! But in a new color and on a Neo habit. Easy to use in mixed combos.

MiniFamous® Uno Series Calibrachoa

- Early-to-flower and medium compact, this series offers core colors and novel flower forms, and all are uniform in timing.
- Grows well in quarts and hanging baskets.

Calibrachoa hybrida 🌞

Height: 8 to 10 in. (20 to 25 cm)

Spread: 10 to 12 in. (25 to 30 cm)

NEW Trixi On the Double

NEW MiniFamous Uno Double
Dark Blue Calibrachoa

NEW MiniFamous Uno Double
PlumTastic Calibrachoa

NEW MiniFamous Uno Dark Blue

Has a slightly lower vigor than Blue, features a large flower and matches the series better for uniformity.

NEW MiniFamous Uno Pink 20

More vigorous to better match the series for uniformity.

NEW MiniFamous Uno Double Dark Blue

Matches PinkTastic for flower size and pattern, with a solid blue color.

NEW MiniFamous Uno Double PlumTastic

Another striking double flower form, in blue bicolor.

NEW MiniFamous Uno Double Red 20

Solid red color, with the double flower form that's turning heads this season!

NEW MiniFamous Uno Double White+Pink Whirl

PinkTastic's sister! Has the same flower size, habit, vigor and performance, but in a slightly new "whirl" pattern, similar to veining.

Dahlietta® Series Dahlia

- Dahlietta flowers in as little as 7 weeks for quick turns.
- More colors, patterns and improvements create a best-in-class, easy-to-grow assortment.

Dahlia pinnata 🌻

Height: 8 to 10 in. (20 to 25 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Dahlietta Anna

NEW Dahlietta Louise

NEW Dahlietta Patty 20

NEW Dahlietta Paula

Dalaya™ Series Dahlia

- Big blooms and exciting color selection.
- Excellent garden performance and Powdery Mildew resistance to beat the competition!
- Ideal for gallons and larger pots.

Dahlia hybrida 🌻

Height: 16 to 18 in. (41 to 46 cm)

Spread: 12 to 16 in. (30 to 41 cm)

NEW Dalaya Dark Red+White

NEW Dalaya Purple+White

NEW Dalaya Vampire

NEW Dalaya White

NEW Venti™ Series Dahlia

- A uniform, vigorous series of double-flowered dahlias that brings a broad range of core single colors and exciting bicolors to the market.
- Fills the 2.5-qt. and larger dahlia needs and puts on a large flower display; provides a more controlled habit than the competition.
- Sourced from a worldwide-proven dahlia cutting farm, Venti varieties have been trialed and grown throughout Europe and North America with excellent results.

Dahlia pinnata 🌻 🌻

Height: 15 to 18 in. (38 to 46 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Venti Passion Fruit

NEW Venti Golden Yellow

NEW Venti Lemon

NEW Venti Light Rose

NEW Venti Pink+White Eye

NEW Venti Red+White

NEW Venti Royal Purple

NEW Venti Tequila Sunrise

NEW Venti White

Lido™ Series Delosperma

- Colorful addition to your succulent program in a drought-tolerant flowering plant!
- Produces carpets of bright color for garden beds, landscapes and rock gardens that will grab attention from home gardeners at retail, increasing self-through.

Delosperma cultivars 🌞

Height: 4 to 6 in. (10 to 15 cm)

Spread: 16 to 24 in. (41 to 61 cm)

USDA Zone: 5b

NEW Lido Golden Yellow

NEW Lido Orange+Eye 20

Offers bigger blooms and more flower power!

Marcada™ Series Interspecific Geranium

- This strong interspecific geranium series offers superior flower retention throughout growing, shipping and on the retail shelf.
- Also, holds its flowers well in the rain and thrives in the heat to thrill home gardeners throughout Summer.

Pelargonium cultivars 🌞🌧️

Height: 12 to 16 in. (30 to 41 cm)

Spread: 12 to 18 in. (30 to 46 cm)

NEW Marcada Pink+Purple Eye

Adds a great bicolor to the Marcada series.

Sunrise™ Series Zonal Geranium

- Large-flowered series features early blooms on a green leaf, medium vigor plant that's great for bench runs!
- With a super color range and upright habit, Sunrise is perfect for your larger basket and gallon container programs.

Pelargonium x hortorum 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 14 in. (30 to 36 cm)

NEW Sunrise Pink+Big Eye 20

Offers shorter petioles, improved branching, better habit, productability and better overall plant health than original Pink+Big Eye.

NEW Sunrise Red

Replacing Bright Red, NEW Red is earlier to flower, with a darker zone in the leaf that creates more contrast.

NEW Silver Ribbon *Helichrysum*

- A completely new habit and texture of *helichrysum* compared to Silver Threads or any other variety on the market.
- Silver Ribbon has flat, needle-like foliage and an upright, vigorous habit.
- Provides a sweet fragrance on the retail shelf and in the home garden.

Helichrysum italicum 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 10 to 12 in. (25 to 30 cm)

USDA Zone: 7

NEW Silver Ribbon

NEW Silver Stitch *Helichrysum*

- Features small, needle-like foliage and a compact, mounding habit.
- Grow this *helichrysum* as an easier-to-manage replacement for *calocephalus*.
- Drought tolerant and stays full.

Helichrysum italicum 🌞

Height: 8 to 14 in. (20 to 36 cm)

Spread: 6 to 14 in. (15 to 36 cm)

USDA Zone: 7

NEW Silver Stitch

NEW Featherlight White *Lobularia*

- A good variety of *lobularia* that offers a shippable cutting for use in different sizes of containers.
- This is a great choice for growers, allowing them to tailor their needs for large containers and single-species baskets.
- Provides a sweet fragrance on the retail shelf and in the home garden.

Lobularia maritima 🌞🌸

Height: 4 to 6 in. (10 to 15 cm)

Spread: 12 to 16 in. (30 to 41 cm)

NEW Featherlight White

NEW Magnetica Series Mandevilla

- New mandevilla series is available in two bold colors.
- Provides a more vigorous, climbing habit with larger, non-fading blooms than Dundee.

Mandevilla sanderi 🌞

Height: 24 to 48 in. (61 to 122 cm)

Spread: 14 to 18 in. (36 to 46 cm)

NEW Magnetica Dark Red

NEW Magnetica Pink

4D™ Series Osteospermum

- The next dimension in double osteos!
- 4D stays open 24/7, with great branching for masses of blooms and superior series uniformity.

Osteospermum hybrid 🌞

Height: 8 to 12 in. (20 to 30 cm)

Spread: 12 to 16 in. (30 to 41 cm)

NEW 4D Harvest Moon

Large-flowered, light orange petals with dark orange, anemone-type center florets create a bicolor effect.

NEW 4D Violet Ice 20

Increased uniformity of flower shape and a more controlled habit make this a natural upgrade.

FlowerPower™ Compact Series Osteospermum

- Medium, easy-to-control vigor with excellent branching, brilliant colors and uniformity.
- Early-flowering series has a more mounded habit that's great for high-density production and baskets.
- Available as callused cuttings.

Osteospermum ecklonis 🌞

Height: 8 to 12 in. (20 to 30 cm)

Spread: 12 to 18 in. (30 to 46 cm)

**NEW FlowerPower Compact
Yellow 20**

Yellow 20 has better heat performance, bigger and brighter flowers and more blooms than its predecessor.

FlowerPower™ Series Osteospermum

- Upgraded for better cold-tolerance and larger flowers.
- Ideal for cool growing and low-energy production, with no cold treatment required for flower development.
- Features excellent branching, an upright habit and brilliant colors.
- Available as callused cuttings.

Osteospermum ecklonis 🌻

Height: 10 to 14 in. (25 to 36 cm)

Spread: 14 to 20 in. (36 to 51 cm)

NEW FlowerPower White 20

Zion™ Series Osteospermum

- Inspired by the colors of Zion National Park in Utah, this series features distinctive, novel colors.
- Large flowers on plants with excellent branching and full, mounded habits have great consumer appeal.
- Available as callused cuttings.

Osteospermum ecklonis 🌻

Height: 16 to 20 in. (41 to 51 cm)

Spread: 16 to 24 in. (41 to 61 cm)

NEW Zion Magic Yellow

A bold new color for the Zion series. Compared to Apricot Pink, Magic Yellow is a brighter yellow with a more true pink bicolor center.

NEW Zion Morning Sun

Features bright golden petals and a deep blue center.

NEW Zion Purple Sun

Features a vibrant color with several shades of orange that transition into a deep purple ring that surrounds the heart of the flower.

Headliner™ Series

Petunia

- Mounded petunia series boasts early flowering for a fast finish and a dramatic color range.
- Creates eye-catching finished baskets and pots with large blooms!

Petunia cultivars 🌞

Height: 10 to 16 in. (25 to 41 cm)

Spread: 20 to 30 in. (51 to 76 cm)

NEW Headliner Dark Saturn

Features a deep, velveteen purple center with a creamy yellow halo, to expand the galactic series.

Starlet™ Series Petunia

- Compact and controlled series has well-matched timing, vigor and habit.
- Early to flower and fast to finish, Starlet is excellent for small pots, baskets and combos.

Petunia cultivars ☀

Height: 8 to 10 in. (20 to 25 cm)

Spread: 12 to 20 in. (30 to 51 cm)

NEW Starlet Red

New color addition replaces the lost red genetics with just as much bold color as ever!

NEW Starlet Velvet 20

This upgrade to Velvet has a better mounding habit and improved mildew resistance, and it mixes better with other components in a basket.

Blues™ Series Verbena

- Perfect for mixed containers, with a medium vigor, semi-upright habit and excellent branching.
- Big flowers go straight to the top without overpowering other combo components.
- Great Powdery Mildew resistance.

Verbena cultivars 🌞

Height: 10 to 12 in. (25 to 30 cm)

Spread: 12 to 18 in. (30 to 46 cm)

NEW Blues White 20

Earlier to flower, better branched and a more vivid white color than original White, creating more blooms for easier sales!

Lascar™ Series Verbena

- Excellent color range in a uniform, reliable series.
- Early-flowering with a mounded habit and medium vigor.
- Fantastic for mixed containers, pots, gallons or mono baskets.

Verbena cultivars 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 16 in. (30 to 41 cm)

NEW Lascar Vampire

Bold red color with a distinct dark eye that turns blue in low light conditions.

NEW Betulia Series Begonia

- Features a compact habit, with extremely durable, smaller foliage and excellent branching compared to the competition.
- Blooms continuously from Spring through frost with no deadheading.
- Doesn't require PGRs, and it's extremely weather tolerant and versatile for use in outdoor or indoor containers.

Begonia x hiemalis 🌞 🌧️

Height: 4 to 7 in. (10 to 18 cm)

Spread: 5 to 7 in. (13 to 18 cm)

Supplied as: Vegetative

NEW Betulia Bright Pink

NEW Betulia Candy Pink

NEW Betulia Light Pink

NEW Betulia Red

A true, vivid red color.

NEW Spring Fling Series Begonia

- An unstoppable and unbelievable series, with larger flowers and better heat tolerance than its competitors.
- It offers an extremely high rooting percentage, and it is free-flowering throughout the Summer heat and humidity.
- Flourishes in containers and hanging baskets, but is not recommended for in-ground planting.

Begonia hybrida 🌞 🌧️

Height: 12 to 16 in. (30 to 41 cm)

Spread: 12 to 16 in. (30 to 41 cm)

Supplied as: Vegetative

NEW Spring Fling Buttercup

NEW Spring Fling Pink Tulip

NEW Indiaka® Series Cyclamen

- Originality in a midi type.
- Generous, long-lasting blooms have a two-tone color that changes depending on the environment; some petals have a horizontal spread and some are more colorful at the top, while others are striped.
- Best for 4 to 6-in. (10 to 15-cm) pots.

Cyclamen persicum 🌸

Height: 11 to 12 in. (28 to 30 cm)

Spread: 9 to 10 in. (23 to 25 cm)

NEW Indiaka Bright Purple

NEW Indiaka Magenta

NEW Indiaka Rose

NEW Indiaka Salmon

37

Tianis® Series Cyclamen

- Uniform series and short production time make growing and selling easy.
- Produces an abundance of very uniform, long-lasting, mid-size flowers.
- Best for 4 to 5-in. (10 to 13-cm) pots.

Cyclamen persicum 🌸

Height: 8 to 14 in. (20 to 36 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Vegetative

NEW Tianis White Improved

Replaces original White, offering a round, compact habit and excellent performance. Fast-growing with abundant flowers; exceptionally long-lasting blooms contrast with dark foliage.

NEW Diamantina™ Jade Series Bush Dipladenia

- Part of the Diamantina™ Collection of genetics bred by dipladenia and mandevilla expert Lannes of France.
- Sun-loving, bush varieties are earlier to bloom, plus they have increased branching and blooming capacity versus current market competitors.
- The series offers extreme heat, drought and bad weather tolerance.

Mandevilla x hybrida 🌞

Height: 24 to 36 in. (61 to 91 cm)

Spread: 8 to 10 in. (20 to 25 cm)

Supplied as: Vegetative

NEW Diamantina Jade Orange Coral

The only bush dipladenia with true orange blooms on the market! Within the Jade series, this variety can be grown on a support or trellis.

NEW Diamantina™ Opal Series Vining Dipladenia

- Part of the Diamantina™ Collection of genetics bred by dipladenia and mandevilla expert Lannes of France.
- Earlier to bloom, with increased branching and blooming capacity versus current market competitors.
- Great alone or mixed with other sun-loving varieties in patio or garden containers with a support (like a trellis).

Mandevilla x hybrida 🌞

Height: 12 to 60 in. (30 to 152 cm)

Spread: 12 to 16 in. (30 to 41 cm)

Supplied as: Vegetative

NEW Diamantina Opal Orange Sunrise

In a class by itself! This orange bloom color is the only one of its kind on the market in dipladenia/mandevilla. Winner of the IPM Essen 2016 Innovation Award.

NEW Diamantina™ Tourmaline Series Bush Mandevilla

- Part of the Diamantina™ Collection of genetics bred by dipladenia and mandevilla expert Lannes of France.
- Similar to a traditional vining mandevilla, this series has larger foliage and big, beautiful blooms – what makes it so unique is the non-vining habit!

Mandevilla x hybrida 🌞

Height: 12 to 24 in. (30 to 61 cm)

Spread: 12 in. (30 cm)

Supplied as: Vegetative

NEW Diamantina Tourmaline Fuchsia

The only true fuchsia bloom color of mandevilla on the market!

NEW Green Lips Hydrangea

- Supplied as dormant, 4-in. (10-cm) pots with 4-plus canes and 6-in. (15-cm) pots with 6-plus canes.
- Strong and compact pot hydrangea features a distinctive bloom characteristic, as if a bright green paintbrush has been used on the petals.
- Bred by the Hydrangea Breeders Association.

Hydrangea macrophylla 🌸

Height: 14 to 17 in. (36 to 43 cm)

Spread: 15 to 18 in. (38 to 46 cm)

Supplied as: Vegetative

NEW Green Lips

NEW Ice Girl Hydrangea

- Supplied as dormant, 4-in. (10-cm) pots with 4-plus canes.
- A clear bridal white flower for those who want to get away from the tinge of green or pink that other 4-in. (10-cm), white varieties have.
- Bred by the Hydrangea Breeders Association.

Hydrangea macrophylla 🌸

Height: 14 to 17 in. (36 to 43 cm)

Spread: 15 to 18 in. (38 to 46 cm)

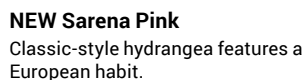

Supplied as: Vegetative

NEW Ice Girl

- Supplied as dormant, 4-in. (10-cm) pots with 4-plus canes and 6-in. (15-cm) pots with 6-plus canes.
- A large-petalled, classic-shaped hydrangea variety.
- Bred by the Hydrangea Breeders Association.

Height: 14 to 17 in. (36 to 43 cm)
Spread: 15 to 18 in. (38 to 46 cm)
Supplied as: Vegetative

- Supplied as dormant, 4-in. (10-cm) pots with 4-plus canes and 6-in. (15-cm) pots with 6-plus canes.
- Increased stability over the original Speedy Red, holding the red tones in the heat.
- Bred by the Hydrangea Breeders Association.

Height: 14 to 17 in. (36 to 43 cm)
Spread: 15 to 18 in. (38 to 46 cm)

NEW Kanmara[®] Series Hydrangea

- Supplied as dormant, 9-in. (23-cm) pots with 8-plus canes.
- A new generation of hydrangea with large, majestic blooms in unique shades and elegant foliage.
- A beautiful display of color on the terrace, doorstep or balcony, well into late Summer or Fall.

Hydrangea macrophylla 

Height: 20 to 24 in. (51 to 61 cm)

Spread: 34 to 36 in. (86 to 91 cm)

NEW Kanmara Blue

SunGlow™ Series Nemesia

- Superb plant for the shoulder season – blooms from early Spring to Summer and offers great heat tolerance.
- Easy to finish and perfect for quart production.
- Fragrant, delicate flowers are a showstopper in the garden in early Spring through Summer.

Nemesia x hybrida 🌻

Height: 12 to 14 in. (30 to 36 cm)

Spread: 10 to 12 in. (25 to 30 cm)

Supplied as: Vegetative

NEW SunGlow Purple Bicolor

NEW SunGlow Red

NEW SunGlow Dark Purple

Features a dark purple flower with a yellow eye.

NEW Zesty™ Series Zinnia

- Extraordinary garden appeal, with fully double flowers and excellent garden vigor.
- Displays huge, vibrant colors all season long.
- Impressive in containers, mixed combinations and borders.

Zinnia elegans ☀

Height: 18 to 24 in. (46 to 61 cm)

Spread: 18 to 24 in. (46 to 61 cm)

Plug crop time: 3 to 4 weeks

Transplant to finish: 6 to 7 weeks

*Also being introduced by PanAmerican Seed, excluding Zesty Yellow.

NEW Zesty Yellow

NEW Zesty Fuchsia

Vivid rose-purple color to light up the garden.

NEW Zesty Pink

A darker pink shade with more purple/rose tones than the competition.

NEW Zesty Purple

Stunning and unique deep purple color.

NEW Zesty Scarlet

The most compact variety in the series.

NEW Zesty White

A true white color.

NEW Zesty Mixture

Includes all the colors of the series.

NEW Redarling F₁ Brussels Sprouts

- Distinctive, vivid, red-purple, 1-in. (3-cm) Brussels sprouts have a slightly sweeter flavor than most green varieties, and they are a rich source of Vitamin C and folic acid.
- The high-yielding plants stand up to cool nights and frost.
- These mild-flavored Brussels sprouts will be popular at the dinner table late into the season.

Brassica oleracea, Gemmifera 🌞

Height: 30 to 40 in. (76 to 102 cm)

Spread: 20 to 30 in. (51 to 76 cm)

Days to harvest: 140 from transplant

Fruit size: 1 in. (3 cm)

Supplied as: Raw seed

Exclusively Burpee!

NEW Redarling

NEW Mardi Gras Fun F₁ Series Sweet Pepper

- The perfect snack-sized peppers feature eye-catching colors that beg to be eaten.
- The Mardi Gras series offers four colors that can be grown together in one large container for a fun patio display.
- They are well-matched in habit and timing across all colors.

Capsicum spp. 🌞

Height: 18 to 30 in. (46 to 76 cm)

Spread: 12 to 18 in. (30 to 46 cm)

Days to harvest: 65-80

Fruit size: 3.5 x 1.5 in. (9 x 4 cm)

Supplied as: Raw seed

NEW Mardi Gras Fun Orange

NEW Mardi Gras Fun Purple

NEW Mardi Gras Fun Red

NEW Mardi Gras Fun Yellow

NEW Red Standard F₁ Sweet Bell Pepper

- This colossal, green-to-red bell pepper produces thick-walled fruit that adjusts well from cool-to-warm seasons.
- It offers early maturity and high yields, and the peppers will ripen to red quickly in hot climates.
- It also offers excellent disease resistance and an early bush growing habit.
- Gardeners will love how easy it is to grow these peppers in the ground or in patio containers.

Capsicum annuum 🌞

Height: 22 to 25 in. (56 to 64 cm)

Spread: 12 to 16 in. (30 to 41 cm)

Days to harvest: 60-65 to green, 70-80 to red

Fruit size: 4 x 5 in. (10 x 13 cm)

Disease resistance: Bacterial Leaf Spot 1-5, 7-9

Supplied as: Raw seed

NEW Red Standard

NEW Roulette F₁ Sweet Habanero Pepper

- Roulette offers the signature look and taste of a habanero without the heat!
- Peppers start green and mature to red, where they are at their best flavor.
- Matures faster than other habaneros in its class.

Capsicum chinense 🌞

Height: 30 to 40 in. (76 to 102 cm)

Spread: 20 to 30 in. (51 to 76 cm)

Days to harvest: 87

Fruit size: 3 x 1.5 in. (8 x 4 cm)

Supplied as: Raw seed

All-America Selections National Winner.

NEW Roulette

NEW Lemon Drop Squash

- Small, lemon-shaped fruits bring a new look and flavor to the table!
- Unique, creamy yellow squash can be picked at a very young stage, and is ideal for fresh eating, sautéed or grilled.
- Grows best in-ground.

Cucurbita pepo 🌞

Height: 12 to 16 in. (30 to 41 cm)

Spread: 40 in. (102 cm)

Days to harvest: 55-60

Supplied as: Raw seed

Exclusively Burpee!

NEW Lemon Drop

NEW Grand Slam F₁ Slicer Tomato

- Grand Slam hits it out of the park, producing high yields of large, great-tasting slicer tomatoes all Summer long.
- Ideal for patio containers and garden beds alike, it also offers high disease resistance.

Solanum lycopersicum 🌞

Height: 24 to 36 in. (61 to 91 cm)

Spread: 24 to 36 in. (61 to 91 cm)

Days to harvest: 74

Fruit size: 10 to 12 oz. (284 to 340 g)

Disease resistance: High Resistance to Fusarium 0,1 (Fol), Verticillium, Nematodes, Tomato Spotted Wilt Virus

Growth: Determinate

Supplied as: Raw seed

Exclusively Burpee!

NEW Grand Slam

Plug & Play® Combos

Serena® F₁ Series Angelonia

- Serena and companion Serenita are the only seed angelonias on the market, for less labor and more efficiency.
- Highly durable series performs well under a wide range of weather conditions, and grows up to 50% larger in Florida-like conditions.

Angelonia angustifolia 🌞

Height: 16 to 20 in. (41 to 51 cm)

Spread: 12 to 14 in. (30 to 36 cm)

Supplied as: Pelleted

Plug crop time: 5 to 6 weeks

Transplant to finish: 8 to 9 weeks

NEW Serena Rose

A new color segment for Serena! Dense spikes feature large florets with a deep rose bloom and a dark eye.

Serenita® F₁ Series Angelonia

- Serenita has all the good looks, durability and easy production of Serena; requires less to no PGRs for cost savings.
- Peak performer in very hot/humid night temperatures and great for high-density production in the north.

Angelonia angustifolia 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 14 in. (30 to 36 cm)

Supplied as: Pelleted

Plug crop time: 5 to 6 weeks

Transplant to finish: 8 to 9 weeks

NEW Serenita Rose

Deep to mid-rose shades are darker than Pink. Height and vigor are a good match for the series.

NEW Pinktopia F₁ Bacopa

- First-ever bacopas from seed let you fully mechanize production, with easy crop scheduling, quick turns, no pinching and no need for stock plants.
- Economical for accent plant programs and performs well in large planters and mixed containers.

Sutera cordata 🌞🌙

Height: 6 in. (15 cm)

Spread: 18 to 24 in. (46 to 61 cm)

Supplied as: Multi-Seed Pellets

Plug crop time: 3 to 4 weeks

Transplant to finish: 4 to 6 weeks

NEW Pinktopia

The third color in this series, with a bright pink color great for mixed containers and large planters. Features a slightly prostrate habit.

NEW AmeriHybrid® Picotee F₁ Series Begonia (Tuberous)

- Bred by Golden State Bulb, a fifth-generation family business specializing in tuberous begonias.
- This series shows off large, ruffled, double flowers in pretty bicolor patterns.

Begonia x tuberosa 🌸 🌻

Height: 14 to 20 in. (36 to 51 cm)

Spread: 10 to 12 in. (25 to 30 cm)

Supplied as: Pelleted

Plug crop time: 7 to 8 weeks

Transplant to finish: 11 to 15 weeks

NEW AmeriHybrid Picotee Calypso

White with a salmon-coral edge.

NEW AmeriHybrid Picotee Flamenco

White with a thick red edge and speckles.

NEW AmeriHybrid Picotee Lace Apricot

Apricot blooms with a white edge.

Kabloom™ F1 Series Calibrachoa

- First-of-its-kind Kabloom series, with a seed form that makes it easy to order and ready to ship.
- Bushy, trailing plants show off abundant, bright blooms in core solid colors; ideal input for grower choice premium quarts.

Calibrachoa x hybrida ☀

Height: 8 to 12 in. (20 to 30 cm)

Spread: 10 to 14 in. (25 to 36 cm)

Supplied as: Precision Multi-Pellets

Plug crop time: 5 to 8 weeks

Transplant to finish: 7 to 11 weeks

NEW Kabloom Blue

Clear, mid-blue with a small yellow throat. Darker blue than Denim. Moderate plant vigor. Replaces Deep Blue.

NEW Kabloom Cherry

Warm cherry-rose with a small rose ring and a small yellow throat. Color may become slightly lighter in high light and warm night conditions. Moderate plant vigor.

NEW Kabloom Coral

Coral-salmon with a small yellow throat. Color can shade to slightly lighter in warmer and higher light conditions. Moderate plant vigor.

NEW Kabloom Light Pink Blast

Light pink with a rose-red ring at the base of the petal and a small yellow throat. Moderate and slightly variable plant vigor.

NEW Kabloom Orange

Clear, bright orange with a darker orange ring at the base of the petal and a small yellow throat. Moderate plant vigor.

NEW Kabloom Pink

Vibrant, clear pink with a rose ring and a medium-sized yellow throat. Moderate vigor with a more upright and mounded plant structure. Replaces Deep Pink.

NEW Kabloom White Improved

Clear, bright white with a small yellow throat. Moderate plant vigor better matches the series. Replaces White.

Ice Cream Series Celosia

- Heat-tolerant, long-lasting series stands tough when temperatures rise – Ice Cream won't melt in the sun!
- Early, compact and well-branched plants produce large, tight flower heads in strong colors.

Celosia plumosa 🌻

Height: 12 in. (30 cm)

Spread: 10 in. (25 cm)

Supplied as: Coated

Plug crop time: 3 to 4 weeks

Transplant to finish: Packs, 8 to 10 weeks;
4 to 5-in./10 to 13-cm pots, 9 to 12 weeks

NEW Ice Cream Yellow Improved

Fits the series better for habit and timing compared to Yellow, which was taller than the other varieties.

NEW Ice Cream Mixture Improved

Contains NEW Yellow Improved in place of Light Yellow. Upgraded for uniformity and brighter colors.

NEW Mandarin Cosmos

- This variety has a deeper orange color, a better habit and is more uniform compared to competing varieties.
- Slightly more compact, with a more mounded shape.

Cosmos sulphureus 🌻

Height: 10 to 12 in. (25 to 30 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Raw

Plug crop time: 3 to 4 weeks

Transplant to finish: 5 to 7 weeks

NEW Mandarin

Sonata™ Series Cosmos

- The best-performing garden cosmos; extremely easy to grow.
- Professional growers choose Sonata because of its capabilities for blooming in the pack and pot; recommended for 5 to 6-in./13 to 15-cm pots.

Cosmos bipinnatus 🌻

Height: 24 in. (61 cm)

Spread: 12 to 14 in. (30 to 36 cm)

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 6 to 7 weeks

NEW Sonata Red Shades

Bright red color expands the series! It features the excellent seed quality the Sonata series is known for, with a flower that is more closed compared to the competition's red.

NEW Sonata Mixture Improved

This mix now offers the most complete color range in *Cosmos bipinnatus*, adding the unique, strong Purple Shades and bright NEW Red Shades into the mix.

NEW Pink Shimmer Cuphea

- Can be easily sown for efficient plug production.
- This reblooming gem requires no deadheading, looks great even under hot conditions and features a profusion of petite flowers all Summer long.

Cuphea ramosissima 🌻 🌻

Height: 10 to 16 in. (25 to 41 cm)

Spread: 12 to 18 in. (30 to 46 cm)

USDA Zone: 9b to 11

Supplied as: Precision Multi-Pellets

Plug crop time: 4 weeks

Transplant to finish: 5 to 11 weeks

NEW Pink Shimmer

Corona™ F₁ Series Dianthus

- This series has the biggest blooms of any dianthus of this type, with exceptional flower form and a palette of shopstopping colors.
- Gives its best performance in cool weather; produces multiple flowers on a compact, mounded plant with uniform flowering time and habit.

Dianthus chinensis 🌞

Height: 8 to 10 in. (20 to 25 cm)

Spread: 8 to 10 in. (20 to 25 cm)

USDA Zone: 5

Supplied as: Pelleted

Plug crop time: 4 to 6 weeks

Transplant to finish: 6 to 8 weeks

NEW Corona Mixture

Brighten color bowls and gardens with this mix of Cherry Red, Rose, Strawberry and White. Huge flower size and uniformity make it the best choice in this class of dianthus.

Floral Lace™ F₁ Series Dianthus

- Early flowering with the largest blooms of any *D. chinensis x barbatus* – up to 1.5 in./4 cm across.
- Performs well in gardens under tough conditions as an annual or biennial; good for high-density Spring and Autumn pack or small pot programs.

Dianthus chinensis x barbatus 🌞

Height: 8 to 10 in. (20 to 25 cm)

Spread: 8 in. (20 cm)

USDA Zone: 6 to 8

Supplied as: Raw, Pelleted

Plug crop time: 4 to 5 weeks

Transplant to finish: 4 to 5 weeks

NEW Floral Lace Red

This rich, red-burgundy represents a key color that was missing from the series.

NEW Glamour Improved Euphorbia

- The best variety for in-ground performance; early to flower, with a vigor that holds up to a variety of weather challenges.
- An exceptional choice for a Baby's Breath Gypsophila-like application in the landscape.

Euphorbia graminea 🌻

Height: 15 to 24 in. (38 to 61 cm)

Spread: 15 to 24 in. (38 to 61 cm)

USDA Zone: 10 to 11

Supplied as: Raw

Plug crop time: 3 to 4 weeks

Transplant to finish: 5 to 8 weeks

NEW Glamour Improved

New Day® F₁ Series Gazania

- More uniform flowering than competing varieties, with larger flowers and better plant habits; compact, sturdy, high-quality plants are easy to produce and super-holdable at retail.
- Drought-tolerant series, bred to deliver shorter peduncles and beefier-looking plants.

Gazania rigens 🌻

Height: 8 to 10 in. (20 to 25 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Coated

Plug crop time: 4 to 5 weeks

Transplant to finish: 8 to 9 weeks

NEW New Day Yellow Improved

Features a larger flower with rounder petals, providing an increased show of color.

NEW Beacon™ F1 Series Impatiens

- Series exhibits high disease resistance to Downy Mildew.
- Offers season-long color, and will bring back fast-filling color to shady gardens and landscapes.

Impatiens walleriana 🌞 🌧️ 🌧️

Height: 10 to 12 in. (25 to 30 cm)

Spread: 12 to 14 in. (30 to 36 cm)

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 3 to 4 weeks

NEW Beacon Orange

NEW Beacon Bright Red

A warm-toned red on upright, mounded, moderately vigorous plants with mid-green foliage.

NEW Beacon Coral

Coral-pink flowers on mid-vigor, mounded plants with bright green foliage.

NEW Beacon Orange

A bright, clean orange on moderate-vigor, upright, mounded plants with bright green foliage.

NEW Beacon Salmon

A warm salmon-orange flower on mid-vigor, mounded plants with bright green foliage.

NEW Beacon Violet Shades

Shades of bright violet and burgundy-violet on moderate-vigor, upright, mounded plants with mid-green foliage.

NEW Beacon White

Pure white flowers on moderately vigorous, upright, mounded plants with mid-green foliage.

NEW Beacon Red White Mix

Includes Bright Red and White.

NEW Beacon Select Mix

Includes Bright Red, Coral, Orange, Salmon, Violet Shades and White.

NEW Flamenco French Marigold

- With its yellow center and red-tipped petals, this novelty color offers a unique pattern similar to Fireball and Strawberry Blonde.
- This variety is in line with the Bonanza series for habit; flowering time is a few days later.

Tagetes patula 🌻

Height: 10 to 12 in. (25 to 30 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Coated, De-tailed

Plug crop time: 3 to 4 weeks

Transplant to finish: 3 to 4 weeks (cell pack); 4 to 5 weeks (quart, 4 in./10 cm)

NEW Flamenco

Akila® F1 Series Osteospermum

- “*Sow easy, so awesome*”: The most compact seed series matches or surpasses any vegetative series for easy, no-pinch production; terrific uniformity and top-selling colors.
- Delivers 5% higher germination than competitors for higher yields – it’s the best seed-grown osteo for both habit and seed quality; drought tolerant once established.

Osteospermum ecklonis 🌻

Height: 10 to 14 in. (25 to 36 cm)

Spread: 14 to 20 in. (36 to 51 cm)

USDA Zone: 9 to 11

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: Spring 10 to 12 weeks, Autumn 7 to 9 weeks

NEW Akila Sunset Shades

This new, multicolor, segregating mix includes popular colors like yellow, magicians and rose-reds, plus salmon, apricot and orange shades. A gorgeous mix of the colors of the setting sun.

Cool Wave® F1 Series Pansy (Spreading)

- The *fastest-growing, longest-lasting, truly trailing pansy* delivers easy spreading color in Spring and Autumn, for an extended growing season.
- More vigorous with the most prostrate habit of any spreading pansy; superior overwintering hardiness makes this series the earliest pansy to return in the Spring.

Viola x wittrockiana 🌞

Height: 6 to 8 in. (15 to 20 cm)

Spread: 24 to 30 in. (61 to 76 cm)

Supplied as: Primed

Plug crop time: 4 to 5 weeks

Transplant to finish: Spring 6 to 7 weeks, Autumn 4 to 5 weeks

NEW Cool Wave Raspberry Swirl

Shows more rose cap in Winter/Spring for cool season production.

NEW Cool Wave Strawberry Swirl

Shows more pink cap in Winter/Spring (cool season) production, and more yellow in the flower face in Summer/Autumn (warm season) production.

Matrix® F1 Series Pansy

- Superior uniformity of timing and plant habit in the marketplace, with a tight bloom window in Autumn production that allows every color to be shipped the same week.
- Low-maintenance series gives pro landscapers the best choice for uniform color striping, plus the most flowers per plant of any large-flowered pansy; holds up to heat and PGR stress.

Viola x wittrockiana 🌞

Height: 8 in. (20 cm)

Spread: 8 to 10 in. (20 to 25 cm)

Supplied as: Raw, Primed

Plug crop time: 5 weeks

Transplant to finish: Spring 6 to 8 weeks, Autumn 4 to 6 weeks

NEW Matrix Blue Blotch Improved

Flower timing has been improved to better match the series. It also offers improved flower presentation.

NEW Matrix Midnight Glow

This new color addition to the series offers a yellow center with a deep violet halo around it. Great for Autumn programs.

NEW Matrix Yellow Purple Wing

Yellow face with a purple cap is a perfect color addition for Autumn programs.

Promise® F₁ Series Pansy

- Early, compact plants with large flowers will not extend beyond the edge of the pot in production.
- Excellent landscape vigor and floriferousness over a long period of time; features a wide range of classic and contemporary colors.

Viola x wittrockiana 🌻 🌻

Height: 8 to 12 in. (20 to 30 cm)

Spread: 8 to 12 in. (20 to 30 cm)

Supplied as: Raw, Primed

Plug crop time: 5 weeks

Transplant to finish: Spring 6 to 7 weeks,
Autumn 4 to 5 weeks

NEW Promise Blue Blotch Improved

Offers more reliable seed quality.

Frizzle Sizzle F₁ Series Pansy

- PanAmerican Seed is the only professional supplier of this unique, frilly flower form – count on reliable seed supply.
- Great for cool-season Winter and early Spring end cap displays; stronger ruffling occurs in cool conditions, Spring production is recommended.

Viola x wittrockiana 🌻 🌻

Height: 6 to 8 in. (15 to 20 cm)

Spread: 8 to 10 in. (20 to 25 cm)

Supplied as: Raw, Primed

Plug crop time: 5 weeks

Transplant to finish: Spring 6 to 8 weeks,
Autumn 4 to 6 weeks

NEW Frizzle Sizzle Lemonberry

Earlier with less stretch, and it replaces Fizzy Lemonberry.

Lucky Star® F1 Series
Pentas

- With the fastest follow-up blooming of any full color series pentas on the market and a 1-week bloom window, this series maintains a consistent show of color from retail through end-of-season.
- Follow-up blooms do not eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal work.

Pentas lanceolata 🌞

Height: 12 to 16 in. (30 to 41 cm)
Spread: 12 to 14 in. (30 to 36 cm)
Supplied as: Pelleted
Plug crop time: 6 to 7 weeks
Transplant to finish: 7 to 8 weeks

NEW Lucky Star Lipstick
Matches the series with fast secondary/ follow-up blooming and compact habit.

NEW Lucky Star White Improved
Earlier to flower, with increased vigor; best choice on the market for compact pentas.

Double Cascade F1
Series Petunia (Double)

- Huge, 3 to 3.5-in./8 to 9-cm, double flowers resemble carnations.
- Outstanding habit and good branching; excellent program for late Spring sales.

Petunia x hybrida 🌞

Height: 10 to 15 in. (25 to 38 cm)
Spread: 10 to 12 in. (25 to 30 cm)
Supplied as: Raw, Pelleted
Plug crop time: 4 to 5 weeks
Transplant to finish: 6 to 7 weeks

NEW Double Cascade Valentine
Beautiful red blooms can have splashes of white appear on some of the tips. The unique double flowers feature a delicate fringe.

Celebrating 25 years!

NEW Wave Carmine Velour

Wave® F₁ Series Petunia (Spreading)

- Wave has set the standard for petunia landscape performance; series is virtually carefree and blooms like crazy all season, with masses of flowers along the entire length of each branch with no trimming back.
- Stands up well to both heat and cooler conditions, and performs better than most petunias when *Botrytis* is present.

Petunia x hybrida 🌞

Height: 5 to 7 in. (13 to 18 cm)

Spread: 36 to 48 in. (91 to 122 cm)

Supplied as: Pelleted

Plug crop time: 4 to 6 weeks

Transplant to finish: Spring 7 to 9 weeks,
Summer 5 to 7 weeks

NEW Wave Carmine Velour

Vivid, hot carmine-cherry color on vigorous, flat, spreading plants. Color is more vibrant and slightly brighter than Easy Wave® Berry Velour. 13 hours daylength required. Cold durable.

Easy Wave® F₁ Series Petunia (Spreading)

- Exceptional uniformity for simplified production, maximized plug yields and the ability to meet every ship date for every color.
- More mounded with more controlled spread than Wave® varieties.

Petunia x hybrida 🌞

Height: 6 to 12 in. (15 to 30 cm)

Spread: 30 to 39 in. (76 to 99 cm)

Supplied as: Pelleted

Plug crop time: 4 to 6 weeks

Transplant to finish: Spring 6 to 7 weeks,
Summer 4 to 5 weeks

NEW Easy Wave Lavender Sky Blue

New color category for this series, with shades of lavender to sky blue; colors will be darker under cooler and lower light conditions. Moderate plant vigor. 9.5 hours daylength required. Cold durable.

Optic™ F1 Series Primula

- Full-flowering series with tidy green foliage provides bright and rich, non-fading color in Autumn and Winter gardens and planters.
- Compact plants require less PGRs, and the series needs less cold to initiate flowers, making for easier programming; superior seed quality results in a very uniform plant.

Primula acaulis 🌞 🌱

Height: 4 to 6 in. (10 to 15 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 5 to 8

Supplied as: Primed

Plug crop time: 5 to 6 weeks

Transplant to finish: Autumn 13 to 15 weeks

NEW Optic Gold

The most vigorous plant in the series.

NEW Optic Scarlet Flame

More stable scarlet flame bicolor pattern than competing varieties. Its large, yellow flame brightens up any mix.

Quartz XP Series Verbena

- More uniform with overall longer garden performance than competing varieties; delivers a tight, 7-day flowering window, earlier and significantly better branching, and reduced internode length.
- Strong seed quality, high germination and great young plant vigor assure superior performance.

Verbena x hybrida 🌞 🌱

Height: 8 to 10 in. (20 to 25 cm)

Spread: 10 to 12 in. (25 to 30 cm)

Supplied as: Raw, Primed

Plug crop time: 4 weeks

Transplant to finish: Spring 6 to 8 weeks, Summer 5 to 7 weeks

NEW Quartz XP Bordeaux

Fits the series for habit and timing, and holds its color better in high-light landscapes.

NEW Frizzle Sizzle Mini F₁ Series Viola

- Adds a unique frilly flower form to violas, great for containers or “close-up” landscapes.
- Best for cool seasons in early Spring or Autumn; stronger ruffling occurs in cool conditions, Spring production is recommended.

Viola cornuta 🌻 🌻

Height: 6 to 8 in. (15 to 20 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 6

Supplied as: Raw, Primed

Plug crop time: 4.5 to 5 weeks

Transplant to finish: 6 to 7 weeks

NEW Frizzle Sizzle Mini Tapestry

Flowers contain shades of purple, burgundy and yellow, providing a tapestry of color.

NEW Frizzle Sizzle Mini Purple Shades

Frilled purple flower with an attractive dark eye.

NEW Frizzle Sizzle Mini Yellow

Frilled yellow flower with an attractive dark eye.

NEW Frizzle Sizzle Mini Mixture

Includes Yellow, Purple Shades and Tapestry.

NEW Quicktime™ F₁ Series Viola

- Early-blooming, free-flowering plants provide bright color in early Spring and Autumn gardens.
- Almost day neutral and free-flowering selection criteria make Quicktime Viola the best option for saving growing time in cold-grown, overwinter-produced viola crops.

Viola cornuta 🌻 🌻

Height: 6 to 8 in. (15 to 20 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 6

Supplied as: Primed

Plug crop time: 4.5 to 5 weeks

Transplant to finish: Autumn 3 to 4 weeks,
Spring 5 to 6 weeks

**NEW Quicktime Yellow
Violet Jump Up**

Sorbet® F₁ Series Viola

- Plants cover the soil at flowering with more blooms and less stretching, and fewer PGRs are needed; series has superior holdability and less shrink.
- Use in Autumn and Spring programs – the novelty colors have good retail and garden appeal.

Viola cornuta 🌞 🌧️

Height: 6 to 8 in. (15 to 20 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Raw, Primed

Plug crop time: 4.5 to 5 weeks

Transplant to finish: Early Spring 6 to 9 weeks, Autumn 4 to 6 weeks

NEW Sorbet Rose Wing

Deep pink-to-rose cap with a white face provides a “jump up” look. Slightly darker color than Pink Wing. Color will be most intense under cooler conditions.

Sorbet® XP F₁ Series Viola

- Sorbet XP genetics deliver a uniform plant habit and the tightest bloom window.
- Requires fewer PGRs, with superior holdability and less shrink; stays compact in both heat and cold; offers a wide range of clear colors for custom mixes.

Viola cornuta 🌞 🌧️

Height: 6 to 8 in. (15 to 20 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Raw, Primed

Plug crop time: 4.5 to 5 weeks

Transplant to finish: Early Spring 6 to 8 weeks, Autumn 4 to 5 weeks

NEW Sorbet XP Neptune

Beautiful cream with blue picotee color is now available with XP performance.

NEW Zesty Fuchsia
Vivid rose-purple color to light up the garden.

NEW Zesty Pink
A darker pink shade with more purple/rose tones than the competition.

NEW Zesty Purple
Stunning and unique deep purple color.

NEW Zesty Scarlet
The most compact variety in the series.

NEW Zesty White
A true white color.

KieftSeed™

NEW Rockin'™ F₁ Series Dianthus

- The Rockin' series opens the door to premium product sales in perennial quart and gallon programs for mid-Spring and the Autumn decorating season.

Dianthus x barbatus interspecific 🌞🌱

Height: 18 to 24 in. (46 to 61 cm)

Spread: 10 to 12 in. (25 to 30 cm)

USDA Zone: 5 to 8

Supplied as: Pelleted

Plug crop time: 4 to 6 weeks

Transplant to finish: 8 to 9 weeks

NEW Rockin' Pink Magic

Blooms open white and mature to light pink, then deep pink.

NEW Rockin' Purple

Lavender-purple color.

NEW Rockin' Rose

Deep rose color.

Bandera Series Lavandula

- A true breeding breakthrough! The first professional-quality seed *L. stoechas* series offers a compact-to-medium habit with good branching and uniformity – easily fills 4-in./10-cm pots to gallons.
- Short harvest window – fits bench run programs.

Lavandula stoechas 🌞

Height: 7 to 9 in. (18 to 23 cm)

Spread: 10 to 12 in. (25 to 30 cm)

USDA Zone: 7 to 10

Supplied as: Raw

Plug crop time: 6 to 7 weeks

Transplant to finish: 11 to 14 weeks (28 to 35 weeks overwintered, only in high light/low humidity areas)

NEW Bandera Deep Purple

Brings a unique, strong, deep purple color from seed. It complements the series, offering the same strong colors found in vegetative varieties.

NEW Bandera Deep Rose

The strongest rose color from seed on the market! Habit and timing are a great match for the other Bandera varieties.

NEW Madonna F₁ Leucanthemum

- Madonna offers better uniformity in height and habit over the competition.
- With a larger percentage of salable plants, Madonna requires less labor for harvesting and grading.

Leucanthemum x superbum 🌞

Height: 8 to 10 in. (20 to 25 cm)

Spread: 8 to 12 in. (20 to 30 cm)

USDA Zone: 5 to 9a

Supplied as: Raw

Plug crop time: 5 to 6 weeks

Transplant to finish: 10 to 14 weeks

NEW Madonna

Mon Amie Series Myosotis

- The Mon Amie series gets a second color and a mix!
- Send your crop to market 3 to 6 months earlier than biannual myosotis varieties, as no vernalization is needed for flowering.
- Can be a good choice for annual programs and can be reliably scheduled for Fall or Spring.

Myosotis sylvatica 🌞🌱

Height: 8 to 10 in. (20 to 25 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 6 to 8

Supplied as: Raw

Plug crop time: 4 weeks

Transplant to finish: 5 to 9 weeks

NEW Mon Amie Pink

Has the same habit as Mon Amie Blue, but the foliage is a bit lighter green, and first and 100% flowering is 2 to 3 days earlier.

NEW Mon Amie Mixture

Combines Blue, NEW Pink and White (not available separately).

New Dimension™ Series Salvia

- The deepest blue and rose salvia from seed are economical and easy to produce.
- Large, compact and well-branched series finishes fast with no PGRs needed, and it fits into annual production schedules.

Salvia nemorosa (superba) 🌞🌱

Height: 8 to 10 in. (20 to 25 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 4 to 8

Supplied as: Coated

Plug crop time: 5 to 6 weeks

Transplant to finish: 8 to 11 weeks

NEW New Dimension Rose Improved

It's a win-win! Better germination and larger spikes than the previous Rose, with the same habit to match Blue.

NEW Salvatore Blue Salvia

- Premium-look salvia features the largest spikes and the deepest colored calyx, spikes and flower in *Salvia nemorosa* from seed.
- Perfect for gallons, and a great option for annual and overwintering programs.
- Possible to finish for early Spring, which previously was only possible with vegetative varieties.

Salvia nemorosa (superba) 🌞🌱

Height: 10 to 12 in. (25 to 30 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 4 to 8

Supplied as: Coated

Plug crop time: 5 to 6 weeks

Transplant to finish: 8 to 10 weeks

NEW Salvatore Blue

NEW Campanella™ F₁ Series Campanula

- New series has larger blooms and more colors than competing varieties, and it's around a week later to flower.
- The more vigorous plants are suitable for larger pots.
- Fills pots better with more flowers.

Campanula medium 🌞

Height: 8 to 10 in. (20 to 25 cm)

Spread: 8 to 9 in. (20 to 23 cm)

Supplied as: Pelleted

Plug crop time: 6 to 7 weeks

Transplant to finish: 7 to 10 weeks

NEW Campanella Blue

NEW Campanella Lavender

NEW Campanella Pink

NEW Concertina™ Series Celosia

- Concertina is best for use as an indoor potted plant and in a sunny spot outdoors on the patio.
- This compact pot *cristata* has the widest color range on the market.

Celosia cristata 🌞 🌧️

Height: 8 to 10 in. (20 to 25 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Coated

Plug crop time: 3 to 4 weeks

Transplant to finish: 4 to 6 weeks

NEW Concertina Pink

Slightly more vigorous than the rest of the series.

NEW Concertina Purple

Dark purple variety.

NEW Concertina Red

Rich, velvety red with a traditional green leaf.

NEW Concertina Red Dark Leaf

More vigorous compared to the rest of the series.

NEW Concertina Yellow

Slightly later to flower compared to the rest of the series. Can be more than one week in long days.

NEW Concertina Mixture

Pink and Red Dark Leaf in the mix are slightly more vigorous compared to the rest of the series.

NEW ColorBloom™ F₁ Series Gerbera

- Designed for quart/11-cm pots, Colorbloom is the most uniform series on the market, and it holds its color better and won't fade in high light.
- The series is around 10 days faster to flower than competitors.
- It has a higher amount of usable plants due to better seed quality, with a compact plant habit that requires less to no PGRs.

Gerbera jamesonii 🌻

Height: 4 to 6 in. (10 to 15 cm)

Spread: 6 to 8 in. (15 to 20 cm)

Supplied as: Coated

Plug crop time: 6 to 7 weeks

Transplant to finish: 6 to 10 weeks

NEW ColorBloom Bicolor Orange Yellow

Around one week later to flower compared to other varieties in the series.

NEW ColorBloom Cherry with Light Eye

Can show more red under higher light conditions.

NEW ColorBloom Deep Rose with Light Eye

NEW ColorBloom Red with Light Eye

NEW ColorBloom Yellow with Dark Eye

Slightly smaller flowers than the rest of the series.

NEW ColorBloom Mixture

Contains all 5 varieties.

Mega Revolution™ F₁ Series Gerbera

- Produces manageable, larger-sized plants with very large flowers – beats competing series for color range, bloom size and seed quality.
- Ideal for larger container programs.
- Supplied with industry-leading seed quality.

Gerbera jamesonii 🌻

Height: 6 to 10 in. (15 to 25 cm)

Spread: 12 to 14 in. (30 to 36 cm)

USDA Zone: 9 to 10

Supplied as: Coated

Plug crop time: 6 to 7 weeks

Transplant to finish: 8 to 10 weeks

NEW Mega Revolution Bright Orange with Light Eye

One of the fastest varieties in the series and one with the largest flowers.

NEW Mega Revolution Bright Rose with Dark Eye

Smaller flowers and slightly taller compared to the series average.

Revolution™ F₁ Series Gerbera

- *The most uniform gerbera you can grow*, with a complete color range, and industry-leading seed quality.
- Better second flush of flowers than the competition assures much longer bloom time for the consumer.
- Best for 4.5 to 5.5-in./11 to 14-cm pots, quarts.

Gerbera jamesonii 🌻

Height: 4 to 8 in. (10 to 20 cm)

Spread: 10 to 12 in. (25 to 30 cm)

Supplied as: Coated

Plug crop time: 6 to 7 weeks

Transplant to finish: 8 to 10 weeks

NEW Revolution Deep Pink with Light Eye

Replaces Pink with Light Eye with a deeper pink color.

Salsa Series Ornamental Pepper

- Unique pepper offers a shorter production time and good retail shelf life, with compact growth that doesn't need PGRs.
- Excellent outdoor performance in 2.25 to 4.25-in. (6 to 11-cm) containers, with potting to sale in 12 to 13 weeks.
- Produces attractive purple and yellow, 0.3 x 1-in./1 x 3-cm fruit on compact plants.

Capsicum annuum 🌶️

Height: 4 in. (10 cm)

Spread: 3 to 5 in. (8 to 13 cm)

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 12 to 13 weeks in Autumn

NEW Salsa Purple Yellow

Mona Lisa® F₁ Series Anemone

- Puts out up to 18 flowers per plant...flowers under lower Winter light levels...doesn't need staking, netting or disbudding.
- 4 to 4.5-in. (10 to 12-cm) blooms top sturdy 18-in. (45-cm) stems that are ideal for cutting and design work.

Anemone coronaria 🌸

Stem length: 10 to 18 in. (25 to 46 cm)

Planting density: 2 to 4 plants/ft.² (22 to 44 plants/m²)

Best for: Greenhouse, high tunnel

Supplied as: Raw

Plug crop time: 8 weeks

Transplant to finish: 12 weeks

NEW Mona Lisa Deep Blue Improved

Offers improved germination for more reliable supply. More uniform hybrid than the original for improved efficiencies in cut flower production.

Campana F₁ Series Campanula

- Top-quality professional cut flower series is a low-energy crop, suitable for Summer or Winter production.
- Well-matched across the series for timing and habit, Campana delivers excellent uniformity and 100% top-flowering, with strong stems and good foliage.

Campanula medium 🌸

Stem length: 30 to 34 in. (76 to 86 cm)

Planting density: 6 to 8 plants/ft.² (64 to 80 plants/m²)

Best for: Greenhouse

Supplied as: Pelleted

Plug crop time: 7 to 8 weeks

Transplant to finish: 10 to 14 weeks

NEW Campana Deep Blue Improved

Large-flowered, deep blue campanula fits the series for timing, and is the best-quality variety in the series, plus it features good vase life.

Sunday™ Series Celosia

- First professional cut version of the popular *Celosia plumosa* offers full plumes and long, strong stems to enhance high-end retail mixed bouquets.
- Short, programmable production time and high yield – ideal for high-density programs.
- Excellent shippability and vase life.

Celosia plumosa 🌸

Stem length: 28 to 40 in. (71 to 102 cm)

Planting density: 6 to 8 plants/ft.² (64 to 80 plants/m²)

Best for: Greenhouse, high tunnel

Supplied as: Coated

Plug crop time: 2 to 3 weeks

Transplant to finish: 12 to 16 weeks

NEW Sunday Mixture Improved

Contains all new and improved colors: Dark Pink, Orange, Bright Pink, Cherry, Purple and Gold.

NEW Katz Hi Double Series Matthiola

- Provides greater than 90% yield of double-flowered stems in this top-selling color.
- Delivers shorter crop time, uniform stem length and timing between colors, and better heat tolerance than European or traditional field types.
- 5% of PanAmerican Seed net seed sales of Katz are donated to PanCan for Pancreatic Cancer research in honor of Philip Katz, former PanAmerican Seed Product Manager.

Matthiola incana 🌞

Stem length: 32 in. (81 cm)

Planting density: 12 plants/ft.² (126 plants/m²)

Best for: High tunnel, field

Supplied as: Raw

Plug crop time: 4 weeks

Transplant to finish: 8 to 13 weeks

NEW Katz Hi Double White

Mathilda™ Series Matthiola

- Mathilda delivers the most uniform series on the market for habit and timing, with the best seed quality of any selectable matthiola.
- Important upgrade assures more programmable production, higher production per sq. ft./m in the greenhouse and fewer losses.

Matthiola incana 🌞

Stem length: 32 in. (81 cm)

Planting density: 6 plants/ft.² (65 plants/m²)

Best for: Greenhouse

Supplied as: Raw

Plug crop time: 5 to 6 weeks

Transplant to finish: Winter, 11 to 12 weeks; Spring, 8 to 9 weeks; Summer, 6 to 8 weeks; Fall, 4 to 7 weeks

NEW Mathilda Lavender
Intense lavender color.

NEW Tosca Series Matthiola

- A good series to grow in Summer with higher light levels and temperatures.

Matthiola incana 🌻 🌻

Stem length: 24 to 32 in. (61 to 81 cm)

Planting density: 6 to 7 plants/ft² (65 to 75 plants/m²)

Best for: Greenhouse

Supplied as: Raw

Plug crop time: 5 to 6 weeks

Transplant to finish: Fall: 8 to 10 weeks,
Spring: 10 to 11 weeks, Summer: 6 to 8
weeks, Winter: 12 to 14 weeks

NEW Tosca Yellow

Monaco F₁ Series Snapdragon

- The “go-to” snaps for difficult transition harvest periods – late Summer to early Fall and late Winter to early Spring.
- Monaco tolerates warm Fall conditions without flowering too quickly, and produces high-quality flower spikes when Fall weather is unusually cool and dark.

Antirrhinum majus ☀

Stem length: 39 to 60 in. (99 to 152 cm)

Planting density: 6 to 10 plants/ft² (64 to 106) plants/m); high-density planting under high-light or field situation

Best for: Greenhouse, high tunnel

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 8 to 18 weeks

NEW Monaco Orange

Important color addition to this transitional season series.

Potomac™ F₁ Series Snapdragon

- Tops for production during periods of high light, long days and warm temperatures.
- Plants produce tall, strong stems and long spikes with good flower quality.
- Can be grown year-round with supplemental high-intensity light.

Antirrhinum majus ☀

Stem length: 39 to 60 in. (99 to 152 cm)

Planting density: 6 to 10 plants/ft² (64 to 106) plants/m); high-density planting under high-light or field situation

Best for: Greenhouse, high tunnel

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 8 to 18 weeks

NEW Potomac Royal Improved

Offers more vivid color saturation and better flower spike quality.

NEW Potomac White Improved

Offers more reliable germination and improved flower spike quality.

NEW Orange Marmalade F₁ Sweet Pepper

- Orange Marmalade is an easy addition to any home garden, with high yields of sweet bell peppers that ripen from green to orange.
- Early-ripening, sweet and flavorful, medium-sized fruit are perfect for stuffing or slicing fresh in a salad.
- Includes a high resistance to Bacterial Leaf Spot Races 1-3, 7 and 8, plus Tobacco Mosaic Virus.

Capsicum annuum 🌞

Height: 18 to 24 in. (46 to 61 cm)

Spread: 12 to 18 in. (30 to 46 cm)

Days to maturity from transplant: 70 to 75 to full ripe, 55 to 60 to green

Supplied as: Raw

Plug crop time: 5 to 6 weeks

Transplant to finish: 4 to 7 weeks (flowers), 7 to 9 weeks (green fruit), 10 to 11 weeks (orange fruit)

NEW Orange Marmalade

NEW Lemon Sun F₁ Squash

- Vigorous and strong bush plant habit will produce exceptional yields of uniform, yellow, scalloped, disc-shaped fruit with no green on the blossom end.
- Sweet and tender patty pan squash can be harvested from baby with the flower attached to full size.
- Best grown in-ground.

Curcubita pepo 🌞

Height: 24 to 36 in. (61 to 91 cm)

Spread: 36 to 54 in. (91 to 137 cm)

Days to maturity from direct seed: 40 to 45

Supplied as: Raw

Plug crop time: 2 to 3 weeks

Transplant to finish: 4 to 5 weeks

NEW Lemon Sun

NEW Artemis F₁ Cherry Tomato

- One bite of these super-sweet, rich, red cherry tomatoes will have you craving more. The unique, crisp, firm texture is great in a salad or for sauce.
- High disease resistance to root-zone and foliar disease will ensure excellent plant health.
- Indeterminate; best grown in-ground.

Solanum lycopersicum 🌞

Height: 60 to 84 in. (152 to 213 cm)

Spread: 36 to 48 in. (91 to 122 cm)

Days to maturity from transplant: 50 to 55

Supplied as: Raw

Plug crop time: 3 to 4 weeks

Transplant to finish: 2 to 4 weeks (green plant), 7 to 8 weeks (ripe fruit)

Supplied as: Raw

NEW Artemis

NEW Helix F₁ Cherry Tomato

- Experience the taste of Summer with a perfect balance of sweet and acid from Helix red cherry tomato.
- Early-ripening, high yields and high resistance to root-zone and foliar diseases, including Late Blight resistance, will help ensure excellent performance.
- Indeterminate; best grown in-ground.

Solanum lycopersicum 🌞

Height: 60 to 84 in. (152 to 213 cm)

Spread: 36 to 48 in. (91 to 122 cm)

Days to maturity from transplant: 50 to 55

Supplied as: Raw

Plug crop time: 3 to 4 weeks

Transplant to finish: 2 to 4 weeks (green plant), 7 to 8 weeks (ripe fruit)

NEW Helix

NEW Everleaf Emerald Towers Basil

- Flowers up to 10 to 12 weeks later than standard basil, with a traditional Genovese flavor that's perfect for eating fresh in caprese salad or chopped fresh in recipes.
- Well-branched variety with short internodes makes a beautiful towering plant that stands out at retail, with huge harvest potential.
- Stays tidy for many uses, including in-ground, container gardens and hydroponics.

Ocimum basilicum 🌞

Height: 24 to 36 in. (61 to 91 cm)

Spread: 8 to 12 in. (20 to 30 cm)

Days to maturity from transplant: 30 to 45

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 3 to 5 weeks

NEW Everleaf Emerald Towers

NEW Newton Basil

- A fast-growing variety with a traditional Genovese flavor and large, bright green, crinkled leaves that are great for vegetable wraps and fresh chopped herbs.
- Unlike similar varieties, Newton does not have a licorice aftertaste, appealing to a wide range of consumers.
- Features high resistance to Fusarium.

Ocimum basilicum 🌞

Height: 12 to 20 in. (30 to 51 cm)

Spread: 10 to 16 in. (25 to 41 cm)

Days to maturity from transplant: 21 to 30

Supplied as: Raw

Plug crop time: 4 to 5 weeks

Transplant to finish: 3 to 5 weeks

NEW Newton

NEW Gold Crest Caryopteris

- Shows beautiful golden foliage in Spring and Summer, accented by blue flowers in late Summer and Fall.
- Features a mounded habit and broad leaves.
- Very tolerant of typical spray chemicals, so it won't burn easily in bright sunlight.

Caryopteris hybrid 🌞🌧️

Height: 28 to 36 in. (71 to 91 cm)

Spread: 24 to 30 in. (61 to 76 cm)

USDA Zone: 6 to 9a

NEW Gold Crest

Mountain Frost™ Series Dianthus

- Requires no vernalization to flower, and will re-bloom consistently from early Spring until Fall.
- Tolerant of rainy and wet conditions.
- Great for landscape borders.

Dianthus hybrida 🌞

Height: 6 to 8 in. (15 to 20 cm)

Spread: 10 to 12 in. (25 to 30 cm)

USDA Zone: 5 to 9a

NEW Mountain Frost Red Garnet

Features silver-blue foliage with deep red flowers that don't fade in the heat or sun.

NEW Arctic Fox Series Digitalis

- Beautiful hybrid Digitalis offers Winter hardiness along with season-long flowering.
- No vernalization – one pinch.
- Ideal for 2.5-qt. and 1.5-gal. pot sizes.

Digitalis hybrida 🌞

Height: 18 to 24 in. (46 to 61 cm)

Spread: 16 to 18 in. (41 to 46 cm)

USDA Zone: 5 to 9a

NEW Arctic Fox Rose

Sombrero® Series Echinacea

- Highly floriferous series is naturally well-branched and compact for easy shipping.
- Well-matched in habit and timing.
- Plant Sombrero in the Spring and sell it the same year.

Echinacea x hybrida ☀

Height: 18 to 20 in. (46 to 51 cm)

Spread: 22 to 24 in. (56 to 61 cm)

USDA Zone: 4b to 9

NEW Sombrero Summer Solstice

Bright yellow flowers feature a white ring around the center cone for added interest.

NEW Sombrero Tango Tangerine

Features a beautiful coral/salmon color with a height that matches the series.

NEW Annet Lavandula

- Strong, sturdy English Lavender ships well.
- Flowers in Summer heat.
- An excellent addition for bouquets.

Lavandula angustifolia ☀

Height: 16 to 18 in. (41 to 46 cm)

Spread: 16 to 18 in. (41 to 46 cm)

USDA Zone: 5 to 9a

NEW Annet

NEW Blue Prelude
Nepeta

- A robust plant in the landscape, and it offers pest and disease resistance.
- Features a long flowering season.
- Attracts pollinators with its fragrant foliage.

Nepeta hybrid ☀️
Height: 28 to 36 in. (71 to 91 cm)
Spread: 24 to 30 in. (61 to 76 cm)
USDA Zone: 5 to 9a

NEW Blue Prelude

Quartz® Series
Penstemon

- Reblooms throughout the season for high impact color.
- Sturdy, upright habit.
- Good basal branching.

Penstemon hybrida ☀️
Height: 20 to 24 in. (51 to 61 cm)
Spread: 18 to 24 in. (46 to 61 cm)
USDA Zone: 6 to 9

NEW Quartz Red
Vivid orange/red addition to the series is very heat tolerant and long flowering.

NEW Prima Angelina Sedum

- Sedum Prima Angelina has a denser, more compact habit than Angelina, as well as a more vivid golden color.
- Low-growing and fast-spreading, with fleshy, needle-like foliage.

Sedum rupestre 🌞

Height: 3 to 6 in. (8 to 15 cm)

Spread: 6 to 8 in. (15 to 20 cm)

USDA Zone: 4 to 9

NEW Prima Angelina

Moody Blues® Series Veronica

- Compact series of first-year-flowering Veronica is excellent in gallon production, with great uniformity and habit.
- Continues to cycle and bloom all season until first frost.
- Compact, tidy habit is great for any garden or mixed container.

Veronica hybrida 🌞

Height: 12 to 14 in. (30 to 36 cm)

Spread: 12 to 14 in. (30 to 36 cm)

USDA Zone: 4b to 9

NEW Moody Blues Dark Pink

A long-flowering, deep pink addition to the series.

NEW Moody Blues Mauve Improved

Performance improvement over original Mauve that is longer flowering, with more flowers and a better habit. Disease resistant.
