

Super Elfin[®] XP streamlines production and sends **perfection** to the store

Super Elfin Bold Mix XP

Super Elfin Series Impatiens

The Number One impatiens series from greenhouse to garden, Super Elfin features 14 XP colors and 6 XP mixes. All are extremely well-matched to deliver the best uniformity of any impatiens on the market.

Super-easy to program and produce, XP varieties have a tight, 5 to 7-day bloom window; exceptionally uniform habit and plant vigor; consistency of early flowering; and the biggest blooms. Made up of both new genetics and the “best of the best” existing varieties, Super Elfin XP offers a broad range of the core, top-selling colors plus unique novelties.

Both the Super Elfin XP and standard colors continue to deliver the series’ trademark abundant and early blooms; compact, basal-branching habit; and superior holding power in packs. Super Elfin XP seed delivers consistently with outstanding seed quality that is necessary for today’s mechanized production.

Super Elfin Blue Pearl, Red and White received a very good rating at the University of Wyoming 2008 Flower Variety Trial.

Baill[®]

SINGLE F1 IMPATIENS 
I. walleriana
