plug&play

combos

All-New, All-Seed, All-Proven

The Plug & Play combo program debuted during Summer 2016 to wide acclaim. This fresh and relevant collection is built upon internal and external testing in multiple regions. Trialing in saleable sizes begins at the PanAmerican Seed research greenhouses and in outdoor Summer containers. Then every potential introduction heads out to commercial greenhouses and to real-life gardens. This fully vetted collection of 60+ Plug & Play combos – including 9 newcomers – promises easy, economical production; big retail shows and gardener-satisfying results.

All the details are in our brochure at panamseed.com/PlugandPlay

NEW

Combo Blue Petunia

SPREADING PETUNIA
Petunia x hybrida

New Combo Blue F1

Height: 6 to 12 in./15 to 30 cm
Spread: 2.5 to 3.25 ft./76 cm to 1 m
Flower size: 2 to 3 in./5 to 7 cm

Seed supplied as: Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: Spring 6 weeks, Summer 4 weeks

• Chosen specifically for its habit and performance as a combination component.
• Large, velvety deep blue flowers on a mounding, well-branched plant.
• Timing is similar to Easy Wave Blue, with a minimum daylength requirement of 10.5 hours
wave® plug & play combos

key grower tips

Start out right!
The first step in defining the Plug & Play combination pot starts on the planting line. Follow the recipes and planting diagrams for best success. Plug size, number and planting position is key.

PLUG SIZE: Every Plug & Play recipe takes each ingredient’s growth rate and flower timing into consideration. Larger inputs are used when necessary to obtain the best balance of growth and flowering.

PLUG NUMBER: It is important to use the right ratio of inputs, just as with vegetative intermingled combos. The correct number of plugs per component leads to the best balanced combination finish.

PLUG POSITIONING: Plant your plugs halfway between the middle of the pot and the rim. A tight circle of plugs is key to getting the intermingled look desired in a multi-plant combination. Planting at the rim results in a “clumpy,” less intermingled look. All varieties in each Plug & Play combo are transplanted at the same time in order to finish at the same time. Sow times may vary.

NOTE: In multi-species combos, shear Kabloom plugs before transplanting.

Easy does it!
Next up is PGR application, specifically for multi-species combinations. We recommend the following for the best-toned and fully mixed multi-species combination finish.

PGRS*: Daminozide spray at 2,500 to 5,000 ppm (depending on your conditions) 1 week after transplant, followed by a second daminozide spray 7 to 10 days later. Daminozide will allow the axils to expand, versus a paclobutrazol treatment which can lock up axillary branching. The result is controlled growth early, while still allowing good branching for the combination’s development.

When plants grow to the rim and begin to fill the pot, switch to a repeated low rate paclobutrazol drench at 1 to 2 ppm (depending on your conditions). Go easy – too high a rate for the paclobutrazol drench can stop the non-petunia components and lead to a bad mix result.

*Rates are based on trials in the northern U.S.

IMPORTANT: All varieties in each Plug & Play combo must be transplanted at the same time in order to finish at the same time. Sow times will vary.

Purple Prince Alternanthera

**ALTERNANTHERA**
*Alternanthera brasiliiana*

**New Purple Prince**

- **Height:** 10 to 16 in./25 to 41 cm
- **Spread:** 18 to 20 in./46 to 51 cm
- **Seed supplied as:** Raw
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** 7 to 8 weeks

• First compact seed alternanthera is an easy-to-grow alternative to vegetative varieties.
• Durable carpet of ruby/burgundy foliage is ready to take on any Summer condition including drought and rain. Imagine this unique colour accent in large cityscapes and as a "spiller" in high-impact containers!
• May flower under very short days; light plants at that time of year to prevent bud formation.
MEGAsize + MEGAcolour = MEGAsales!

All-new Megawatt debuted for 2017 as a fresh, high-energy option in begonias, pushing this must-have class to a whole new level with great timing benefits, a unique colour, ultimate garden power and more. These bigger-than-life hybrids open the door to earlier Spring sales for garden, planters and baskets.

With this introduction, PanAmerican Seed now offers a complete interspecific program, starting with BabyWing® for day-neutral growing… Megawatt for big Spring sales…and Dragon Wing® to round out the season.

BEGONIA ♡ ♡
Begonia interspecific

Megawatt Series F1

Height: 20 to 28 in./51 to 71 cm
Spread: 16 to 24 in./41 to 61 cm
Seed supplied as: Pelleted
Plug crop time: 7 to 8 weeks
Transplant to finish: 7 to 9 weeks

- Striking, non-stop flowers keep plants covered in huge colour all through the Summer.
- Bronze Leaf varieties are faster to flower than the Green Leaf varieties.
- Beautiful plants with lush foliage are perfect for landscapes, baskets, big tubs and borders.

New Red Bronze Leaf Big flower power! Fits well with the other Megawatt Bronze Leaf varieties for timing and habit.
ANGELONIA ©
Angelonia angustifolia

Serena® Series F1
Height: 16 to 20 in./41 to 51 cm
Spread: 12 to 14 in./30 to 36 cm
Seed supplied as: Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: 8 to 9 weeks
• No-pinch, low-hassle Serena continues to deliver the premium results you expect from vegetative varieties, with less labour and more efficiency.
• Unique 3D colour fills gardens, landscapes and mixed containers.

New White Improved Times like current White, with faster secondary flowering. Plants are retail-ready faster, especially for the first shipments.

CALIBRACHOA ©
Calibrachoa x hybrid

New Crave Strawberry Star F1
Height: 10 to 14 in./25 to 36 cm
Spread: 12 to 16 in./30 to 41 cm
Seed supplied as: Pelleted
Plug crop time: 5 to 8 weeks
Transplant to finish: 7 to 11 weeks
• The first star pattern in seed calibrachoa! Flower colour may shade slightly. Under warmer night conditions, the strawberry colour may become lighter, while maintaining a consistent star pattern.
• Plants have good vigour, with a more uniformly branched and controlled habit than Crave Sunset.
• Grows more vigorously than the Kabloom varieties.
• Great colour for Autumn combos.
• Requires 12 hrs. for best flowering.

CELOSIA ©
Celosia plumosa

First Flame Series
Height: 10 to 14 in./25 to 36 cm
Spread: 10 to 16 in./25 to 41 cm
Seed supplied as: Coated
Plug crop time: 3 to 4 weeks
Transplant to finish: 8 to 10 weeks
• Excellent, brightly coloured Summer crop finishes 10 to 14 days earlier than competing varieties to reduce production costs.
• Branches like a regular C. plumosa to produce full blooms.

New Scarlet
The model for the series features outstanding, bright colour and a great habit - fits well with Red and Yellow. Colour holds very well in sun and high light levels.

New Mixture Shows off three bright colours: Red, Yellow and NEW Scarlet.

ICE CREAM SERIES
Height: 12 in./30 cm
Spread: 10 in./25 cm
Seed supplied as: Coated
Plug crop time: 3 to 4 weeks
Transplant to finish: Packs, 8 to 10 weeks; 4 to 5-in./10 to 13-cm pots, 9 to 12 weeks
• Heat-resistant, long-lasting series stands tough when temperatures rise - Ice Cream won't melt in the sun!
• Early, compact and well-branched; stunning in patio planters or gardens.

New Salmon Clear salmon colour on a very good plant habit - one of the models for the Ice Cream series, with a good colour for mixes.
Shocking Summer Colour!
The most heat-tolerant Interspecific Dianthus, Jolt’s electrifying colours and all-season performance make them sure standouts in landscapes and garden beds, as well as premium containers. These highly durable plants withstand hot conditions with few disease issues and continue to flower without setting seed. Add in this year’s new multicolour “Magic” introduction…you’ve got all the makings for a really powerful sales surge!

INTERSPECIFIC DIANTHUS
Dianthus barbatus interspecific

**Jolt Series F1**
- **Height:** 16 to 20 in./41 to 51 cm
- **Spread:** 12 to 14 in./30 to 36 cm
- **Seed supplied as:** Pelleted
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** Late Spring through Autumn finish, 11 to 13 weeks; Winter finish, 14 to 18 weeks

- Grower-friendly, well-branched plants are easy to produce with less to no PGRs.
- Perfect for Summer premium grower choice quarts and gallons.

**New Pink Magic** Flowers open white, then light pink, and mature to dark pink; optimal colour pattern results from high light and cool night temperatures.

**GERBERA**
**Mega Revolution Series**
Revolution Series
See Pot Plants, page 25.
NEW GUINEA IMPATIENS

Impatiens hawkeri

**Divine Series F1**

*Height:* 10 to 14 in./25 to 36 cm  
*Spread:* 12 to 14 in./30 to 36 cm

*Seed supplied as:* Raw

*Plug crop time:* 5 to 6 weeks  
*Transplant to finish:* 7 to 8 weeks

- Divine is the affordable, high-quality alternative to *I. walleriana*, with high resistance to Impatiens Downy Mildew, more single colours and mixes than other series, more vigour in planters and landscapes, and more consistent colour and seed quality.
- This grower-friendly series is perfect for shade landscape premium packs, 4-in./10-cm and quart pot programs.

**New Lavender Improved** Features greater plant vigour, deeper bronzing to the foliage and darker colour saturation than original Lavender.

**New Red** Delivers good vigour, deep green foliage and a true red colour; replaces Scarlet Red and Cherry Red.
**DWARF CRESTED FRENCH MARIGOLD**

*Tagetes patula*

**Bonanza Series**

- Height: 10 to 12 in./25 to 30 cm
- Spread: 6 to 8 in./15 to 20 cm
- Seed supplied as: Coated, De-tailed
- Plug crop time: 3 weeks
- Transplant to finish: 3 to 4 weeks

- The market leader in French marigolds, Bonanza is the one to choose to pump up your pack sales. Popular series delivers earliness with a tight flowering window, uniformity and superior performance under a wide range of conditions.
- Double crested flowers are the largest of any in this type – 2 to 3 in./5 to 8 cm across – in a wide range of pure, intense colours.

**New Bolero Improved**

More reliable seed supply and better germination than original Bonanza Bolero. Flowers a few days earlier but has the same profuse flowering in the garden and attractive bicolour known and loved by consumers.

---

**OSTEOSPERMUM**

*Osteospermum ecklonis*

**Akila® Series F1**

- Height: 16 to 20 in./41 to 51 cm
- Spread: 16 to 20 in./41 to 51 cm
- Seed supplied as: Raw
- Plug crop time: 4 to 5 weeks
- Transplant to finish: Spring 10 to 12 weeks, Autumn 7 to 9 weeks

- “Sow easy, sow awesome”: The most compact seed series matches or surpasses any vegetative series for easy, no-pinch production; terrific uniformity and top-selling colours.
- Delivers 5% higher germination than competitors for higher yields - it’s the best seed-grown osteo for both habit and seed quality.

**New Grand Canyon Mixture**

First multicolour segregating mix includes popular colours like yellow, magicians and rose-reds, as well as purple, lavender, creams and whites.

---

**New Grand Canyon Mixture Osteospermum**

**Akila Grand Canyon Mixture Osteospermum**

**Bonanza Bolero Improved French Marigold**

**Akila Grand Canyon Mixture Osteospermum**
SPREADING PANSY
Viola x wittrockiana

**Cool Wave Series F1**
- **Height:** 6 to 8 in./15 to 20 cm
- **Spread:** 24 to 30 in./61 to 76 cm
- **Flower size:** 2 to 2.25 in./5 to 6 cm
- **Seed supplied as:** Primed
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** Spring 6 to 7 weeks, Autumn 4 to 5 weeks

- The best-performing spreading pansy series delivers easy spreading colour for Spring and Autumn, so you can extend your growing season for the popular Wave Brand.
- More vigorous with the most prostrate habit of any spreading pansy - great in combos and as a groundcover.
- Superior overwintering hardiness - Cool Wave is the earliest pansy to return in the Spring.

**New Raspberry** All-new colour class joins Cool Wave! Rich, velvety rosy-purple with white around flower centre. Shows more white in the face in Summer/Autumn (warm season) production. In Winter/Spring (cool season) production, white is diminished and more rose/purple shows in the bloom. Matches Golden Yellow for vigour.

Twice the spread...double the colour!
Wow ‘em with Cool Wave - hands down, it’s the fastest-growing, longest-lasting, truly trailing pansy for Spring and Autumn. One trip to the garden centre for lush baskets or pots for in-ground planting is enough to convince anyone that Cool Wave is a cool-season gardener’s dream.
PANSY
Viola x wittrockiana
EXTRA-LARGE-FLOWERED PANSY

Matrix® Series F1
Height: 8 in./20 cm
Spread: 8 to 10 in./20 to 25 cm
Flower size: 3.5 in./9 cm
Seed supplied as: Raw, Primed
Plug crop time: 5 weeks
Transplant to finish: Spring 6 to 7 weeks, Autumn 4 to 5 weeks

• Your best option for shorter days and warmer growing - less handling, less waste and exceptional holding power for higher profitability.
• Best uniformity of plant habit and timing; the 7-day bloom window in Autumn production lets you ship all colours in the same week.

New Yellow Improved Flowers 5 to 7 days earlier, with a larger flower on a more uniform plant. Under the heat of Summer/Autumn production, it outperforms all competition in this key colour class.

Large-Flowered Pansy

Spring Matrix Series F1
Height: 8 in./20 cm
Spread: 8 to 10 in./20 to 25 cm
Flower size: 3 in./8 cm
Seed supplied as: Raw, Primed
Plug crop time: 5 weeks
Transplant to finish: Spring 6 to 7 weeks, Autumn 4 to 5 weeks

• Your best option for shorter days and cool growing - plants look better, last longer and have the tightest flowering window for less dump.
• Most uniform Spring-flowering series produces large blooms that maintain good presentation under cold, dark, wet Winter production.

New Yellow Improved Produces a slightly larger, more well-branched plant than original Yellow. Earlier in Spring production by about 5 days.

Promise® Series F1
Height: 8 to 12 in./20 to 30 cm
Spread: 8 to 12 in./20 to 30 cm
Flower size: 2.75 in./7 cm
Seed supplied as: Raw, Primed
Plug crop time: 5 weeks
Transplant to finish: Spring 6 to 7 weeks, Autumn 4 to 5 weeks

• Selected for European growing conditions, Promise is ideal for high-density, pot-tight Spring programs for the European market.
• Early, compact plants with large flowers will not extend beyond the edge of the pot in production.

New Pure Yellow Improved 7 to 10 days earlier in Spring production than original Pure Yellow. The plant is more compact, stretches less and has shorter peduncles, giving growers in Northern EU the best choice in this key colour segment.

PENTAS
Pentas lanceolata
Glitterati Purple Star F1
Height: 12 to 22 in./30 to 56 cm
Spread: 10 to 18 in./25 to 46 cm
Seed supplied as: Pelleted
Plug crop time: 8 to 10 weeks
Transplant to finish: 8 to 10 weeks

• A sure winner! Combines a truly new look for pentas, while still offering the heat/humidity performance that this class is known for.
• Distinctive star pattern combines easily with other varieties, adding a unique component in Fourth of July and other warm/hot season combinations.
• Finishes fast for speed to market, and follow-up blooming keeps the plants in full colour and looking good all season.
Lucky Star Series

**New Lucky Star Series F1**

**Height:** 12 to 16 in./30 to 41 cm  
**Spread:** 12 to 14 in./30 to 36 cm  
**Seed supplied as:** Pelleted  
**Plug crop time:** 8 to 10 weeks  
**Transplant to finish:** 7 to 8 weeks

- With a 3 to 5-day bloom window and the fastest follow-up blooming of any pentas on the market, Lucky Star maintains a consistent show of colour from retail through end-of-season.  
- Follow-up blooms do not eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal effort.  

**Violet** Faster secondary, follow-up blooming and a darker colour intensity than other violet pentas on the market.

Stays in colour... Really!

Lucky Star is bred for the fastest follow-up blooming of any pentas on the market. Nonstop colour means plants look better getting off the truck and they just keep getting better in the store. Plus, the six-colour series has a tight, compact habit that keeps them looking tidy with virtually no effort. The promise of continuous, showstopping color on full, lush plants...now that's a huge plus!

Request your Product Information Guide for full culture details
**ORNAMENTAL MILLET**
*Pennisetum glaucum*

**New Copper Prince F₁**
- Height: 24 to 36 in./61 to 91 cm
- Spread: 18 to 24 in./46 to 61 cm
- Seed supplied as: Raw
- Plug crop time: 2 to 3 weeks
- Transplant to finish: 4 to 5 weeks (green)

- Exciting new colour joins the only ornamental millet seed assortment on the market. Copper Prince begins as a light caramel colour, deepening to copper as it sends up rosy, foxtail-type panicles.
- Nutritionally dense, it's an economical grower option – seed can be direct-sown into finish containers, plants are well-suited to pot sizes up to gallons, and the crop finishes fast.
- Great tillering, leading to a bushy plant habit that's perfect for large containers and landscapes.

**New Jade Princess F₁**
- Height: 24 to 30 in./61 to 76 cm
- Spread: 18 to 24 in./46 to 61 cm
- Seed supplied as: Raw
- Plug crop time: 2 to 3 weeks
- Transplant to finish: 4 to 5 weeks (green)

- Now available for worldwide distribution.
- Intense chartreuse foliage and rich brown, pollenless panicles have a controlled, mounded shape that is more compact than others in the assortment, so plants ship well.
- Economical grower option – seed can be direct-sown into finish containers, plants are well-suited to pot sizes up to gallons, and the crop finishes fast.
- Great tillering, leading to a bushy plant habit that's perfect for large containers and landscapes.
- NOTE: Jade Princess requires warmer temperatures (above 60°F/16°C) than other millets to perform well.

**New Midnight Fire**
- Height: 9 to 12 in./23 to 30 cm
- Spread: 14 to 16 in./36 to 41 cm
- Seed supplied as: Raw
- Plug crop time: 4 to 5 weeks
- Transplant to finish: 7 to 13 weeks

- Distinctive dark black foliage is accented by purple fruit which mature to bright red – this eye-catching combination is sure to result in fast sell-through.
- Perfect for gallons at retail, Mum Pals programs, and large mixed containers for Autumn.

**New Harlequin**
See Pot Plants, page 24.

**ORNAMENTAL OREGANO**
*Origanum x hybrida*

**New Kirigami**
- Height: 8 to 10 in./20 to 25 cm
- Spread: 12 to 14 in./30 to 36 cm
- Seed supplied as: Raw
- Plug crop time: 5 to 6 weeks
- Transplant to finish: 9 to 11 weeks

- The perfect patio plant, this eye-catching, non-culinary oregano features large purple-green bracts, rose flowers and clear, light green foliage, with a delicious fragrance to attract pollinators.
- Dense, mounded, slightly trailing plant has a tighter and fuller habit than standard vegetative varieties, so it holds better in shipping and on the retail bench.
- Heat and drought tolerant, with an eye-catching display of texture from Spring until Autumn.

**New Wicked**
See Pot Plants, page 24.
ANNUALS

PETUNIA

Ez Rider® Series F1

Height: 6 to 10 in./15 to 25 cm
Spread: 6 to 10 in./15 to 25 cm
Seed supplied as: Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: 5 to 6 weeks

- These genetically shorter, more controlled plants need less PGRs and are perfect for high-density packs to “promo” baskets.
- Enhanced, longer garden performance in containers and gardens.

Pretty Grand Series F1

Height: 6 to 10 in./15 to 25 cm
Spread: 8 to 12 in./20 to 30 cm
Seed supplied as: Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: 5 to 6 weeks

- Perfect balance of pack performance and landscape success, with uniform flowering and a 7 to 10-day window for Spring and Autumn sales in packs and small pots.
- Bushy, compact plants are topped by closely spaced, full flower spikes.

New Red Improved

Offers darker, truer red colour; shorter, denser and better-branched plants; and strong, long plant holding. Averages 3 days faster to flower, with faster secondary blooms for earlier retail sales opportunities.

Pretty Grand Series F1

Height: 6 to 10 in./15 to 25 cm
Spread: 8 to 12 in./20 to 30 cm
Seed supplied as: Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: 5 to 6 weeks

- The Pretty collection needs fewer to no PGRs – naturally better branching with shorter internodes keeps plants manageable longer.
- Offers a tight bloom window and longer performance in beds and landscapes.

New Burgundy Improved

Kicks it up a notch with faster flowering by approximately 5 days, plus faster secondary branching and flowering for quicker-to-retail sales opportunities. Produces brighter flowers on shorter, more dense plants.

MULTIFLORA SINGLE PETUNIA

Debonair Collection F1

Height: 10 to 15 in./25 to 38 cm
Spread: 10 to 12 in./25 to 30 cm
Seed supplied as: Pelleted
Plug crop time: 4 to 6 weeks
Transplant to finish: 5 to 7 weeks

- Designer petunias can command a higher price point and open the door to decorator opportunities.
- Mounded, upright habit is ideal for premium pots and larger containers.

New Lime Green Improved

Shows off a deeper bloom colour on a plant that is 10 to 12 days faster to flower, with faster secondary flowers. Stronger plant vigour and similar timing to Black Cherry offer a better mixing option.

GRANDIFLORA SINGLE PETUNIA

Dreams Series F1

Height: 10 to 15 in./25 to 38 cm
Spread: 10 to 12 in./25 to 30 cm
Seed supplied as: Raw, Pelleted
Plug crop time: 5 to 6 weeks
Transplant to finish: 5 to 6 weeks

- Dreams continues to deliver a well-matched Spring bloom time window across all colours, so your crop is off to market right on schedule.
- Consistently high seed quality plus well-branched habit and plant structure assure a high-quality look and excellent performance.

New Burgundy Improved

Kicks it up a notch with faster flowering by approximately 5 days, plus faster secondary branching and flowering for quicker-to-retail sales opportunities. Produces brighter flowers on shorter, more dense plants.

SNAPDRAGON

Antirrhinum majus

Snapshot Series F1

Height: 6 to 10 in./15 to 25 cm
Spread: 8 to 12 in./20 to 30 cm
Seed supplied as: Raw
Plug crop time: 3 weeks
Transplant to finish: 5 to 6 weeks

- The only fully double, disease-resistant zinnia series has bigger flowers than the competition for more colour show.
- Superior all-season performance and durability in landscapes and containers, especially in sunny, hot and dry conditions.

New Fire Improved

Deeper colour saturation and larger flower size than current Fire.

New Raspberry Ripple

New bicolour for the series! Colouring can vary under different environmental conditions. Cooler temperatures accentuate the rose; as flowers age and under more heat, the white comes out more.

New Mixture

Contains Cherry, Salmon Rose, Yellow, NEW Fire Improved and white (not available separately).
ANNUALS

Viola cornuta

**Sorbet® XP Series F1**
Height: 6 to 8 in./15 to 20 cm
Spread: 6 to 8 in./15 to 20 cm
Flower size: 1 to 1.5 in./3 to 4 cm
Seed supplied as: Raw, Primed
Plug crop time: 4 weeks
Transplant to finish: 3 to 5 weeks

- Grow, ship, sell and plant the best-looking violas for Autumn and Spring - Sorbet XP genetics deliver a uniform plant habit and the tightest bloom window.
- Violas are a key landscaper item and Sorbet XP excels at every turn: plants cover the soil at flowering, with more blooms on every plant and less stretching; early; stay compact in both heat and cold; excellent overwintering; wide range of clear colours allows for custom mixes.

**New Yellow Blotch Improved**
Best choice on the market for a yellow blotch viola. 3 to 5 days earlier in Autumn, 7 to 10 days earlier in Spring than current Sorbet XP, Penny or Admire yellow blotch varieties, plus significantly more blooms per plant. Larger blotch.
**New Blueberry Sundae Mixture**
Contains XP True Blue, XP Delft and XP White. Replaces XP Blueberry Frost Mixture and XP Beaconberry Mixture.
**New Ocean Breeze Mixture**
**New Raspberry Sundae Mixture**

**Sorbet® Series F1**
Height: 6 to 8 in./15 to 20 cm
Spread: 6 to 8 in./15 to 20 cm
Flower size: 1 to 1.5 in./3 to 4 cm
Seed supplied as: Raw, Primed
Plug crop time: 4 weeks
Transplant to finish: 3 to 5 weeks

- Plants cover the soil at flowering with more blooms and less stretching, and fewer PGRs are needed, with superior holdability and less shrink.
- Use in Autumn and Spring programs – the novelty colours have good retail and home garden appeal.

**New Honeybee**
Yellow/copper-orange bicolour; bright and sunny for Spring production. 30% more vigorous and longer peduncles than other violas in the Sorbet collection, so best to use more PGRs on this variety.
**New Yellow Violet Jump Up**
Brings a new colour to the assortment - bright violet purple caps make this “jump up” stand out over other varieties on the market. Earlier than the Sorbet XP series.
**NEW**

Bandera Pink Lavandula

---

**LAVANDULA**

*Lavandula stoechas*

**Bandera Series**

**Height:** 7 to 9 in./18 to 23 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**USDA Hardiness Zones:** 7a to 10b  
(0 to 35°F/-18 to 2°C minimum temperatures)

A First-Year-Flowering Perennial.

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 11 to 14 weeks  
(28 to 35 weeks overwintered, only in high light/low humidity areas)

- **A true breeding breakthrough!**
  - The first professional-quality seed *L. stoechas* series offers a compact to medium habit with good branching and uniformity – easily fills 4-in./10-cm pots to gallons.
- **Flowers heavily to almost cover the plant.**
- **Short harvest window – fits bench run programs.**

**New Pink** Important second colour is the perfect partner to Purple. Features large, soft pink flags on spikes with deep rose flowers.

---

**COREOPSIS**

*Coreopsis grandiflora*

**Early Sunrise**

**Rising Sun**

**Sun Up**

**Sunfire**

New! Now available as primed seed to deliver reliable plug production, improved order fill rate, uniform quality in plug trays and as a finished product, and improved margin.
**Rockin’ Red F1**

**Dianthus x barbatus interspecific**

Height: 18 to 24 in./46 to 61 cm
Spread: 10 to 12 in./25 to 30 cm

USDA Hardiness Zones: 4a to 8b
(-30 to 15°F/-34 to -9°C minimum temperatures)

A First-Year-Flowering Perennial.

Seed supplied as: Pelleted

Plug crop time: 4 to 6 weeks
Transplant to finish: 8 to 9 weeks

- Rockin’ Red opens the door to premium product sales in perennial quart and gallon programs for mid-Spring and the Autumn decorating season.
- Lacy, slightly scented flowers top full and long-lasting plants - this one delivers lots of plant for the money and that’s sure to satisfy shoppers.
ORNAMENTAL PEPPER

Capsicum annuum

New Harlequin

Height: 4 to 8 in./10 to 20 cm
Spread: 4 to 8 in./10 to 20 cm
Seed supplied as: Raw
Plug crop time: 4 to 5 weeks
Transplant to finish: 7 to 13 weeks

- Distinctive, large fruit starts yellow and matures to red.
- Compact determinate variety should be sold at first colour or with a few fruit changing to red - these eye-catching Autumn tones are sure to sell fast!
- Excellent branching for a large-fruited pepper - suitable for quarts and Mum Pals programs.
- Recommended for 4.5-in./11-cm pots to gallons.
- Fruit has medium heat.

New Wicked

Height: 6 to 8 in./15 to 20 cm
Spread: 5 to 7 in./13 to 18 cm
Seed supplied as: Raw
Plug crop time: 4 to 5 weeks
Transplant to finish: 7 to 13 weeks

- Compact plant shows off extra-large fruit that starts purple and matures to red. These stunning peppers will certainly capture retail attention!
- Determinate variety should be sold at first colour or with a few fruit changing to red.
- Perfect for quart and Mum Pals programs, plus Autumn mixed containers.
- Fruit has mild heat.

New Midnight Fire

See Annuals, page 19.

**Revolution Yellow with Light Eye Improved**

---

**GERBERA**

*Gerbera jamesonii*

**New Mega Revolution Series F1**

- **Height:** 8 to 12 in./20 to 30 cm
- **Spread:** 8 in./20 cm
- **Flower size:** 4 in./10 cm
- **Seed supplied as:** Coated
- **Plug crop time:** 6 to 7 weeks
- **Transplant to finish:** 8 to 10 weeks

- Vigorous, bushy plants with very large flowers – beats competing series for both vigour and bloom size.
- Ideal for 6-in./15-cm pots and larger.

**New Deep Rose with Light Eye**

Superior dark colour is great for mixes and combo pots, and fits well with the rest of the series. Colour holds very well under high light levels. Replaces Purple Shades.

**Revolution Series F1**

- **Height:** 6 to 10 in./15 to 25 cm
- **Spread:** 8 to 10 in./20 to 25 cm
- **Flower size:** 3 to 4 in./8 to 10 cm
- **Seed supplied as:** Coated
- **Plug crop time:** 6 to 7 weeks
- **Transplant to finish:** 8 to 10 weeks

- The most uniform gerbera you can grow! When it comes to uniformity of flowering window across a complete colour range, Revolution is the leading standard-size pot gerbera.
- Fully programmable for high-density production year-round.
- Best for 4.5 to 5.5-in./11 to 13-cm pots, quarts.

**New Red with Light Eye Improved**

Now offers one of the best varieties of the series for timing, plant habit and uniformity.

**New Salmon Shades with Light Eye**

Features short stems, making it a good mix component, with shades from deep salmon to pink.

**New Yellow with Light Eye Improved**

The best yellow variety in the series is a big improvement over older yellow varieties, with a strong colour and good uniformity.

**New Bicolor Mixture**

Available in North America only. Includes all four bicoline varieties.

---

**Hit your schedule every time**

Flower timing is synchronized across the colour range in each Revolution series, so your product flows smoothly. No surprises – you grow, pick, pack and ship just as you planned. High uniformity enables consistent, fully programmable, high-density crops year-round.
SNAPDRAGON
Antirrhinum majus

Maryland Series F1
(Group 1, 2)

**Stem length:** 39 to 60 in./1 to 1.5 m
**Planting density:** 6 to 10 plants/ft² (64 to 106 plants/m²); high-density planting under high-light or field situation

**Best for:** Greenhouse, high tunnel

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks
**Transplant to finish:** 8 to 18 weeks

- Energy-efficient series is your best choice for cool-season, low-light and low-temperature conditions.
- Group with other Group 1, 2 varieties (Cool, Purple Twist and Red Delilah) for Autumn, Winter and Spring programs.

**New Dark Orange Improved**
(Group 2) More uniform stems, thicker caliper and better taper than original. Replaces Maryland Golden Bronze and Maryland Dark Orange, allowing cut flower growers to streamline their production with one best-in-colour-class variety.

---

**The power of caring & sharing**

We are proud to support PANCAN for pancreatic cancer research by donating 5% of our net seed sales of Katz Matthiola in honor of Philip Katz.

PanAmerican Seed was honored to have Philip Katz as our Cut Flower Product Manager for 13 years. Philip spearheaded the drive to grow our business in this important market into one that is now supplying commercial growers around the globe with outstanding, high-quality cut flower varieties. After a valiant battle, the disease took Philip from all of us. The debut of a new matthiola series was timely and let us honor Philip in a way he would have truly appreciated.
**Grow Your Margin, Grow Your Sales**

All-new Neo lets you grow over a longer period through the year...harvest more usable stems from every ft²/m²...ship out better-quality C. cristata...and give florists a product that's easier to arrange and easier to sell.

**CELOSIA**

*Celosia cristata*

**New Neo Series**

- **Height**: 28 to 40 in./71 to 102 cm
- **Planting density**: 6 to 8 plants/ft² (65 to 86 plants/m²)
- **Best for**: Greenhouse
- **Seed supplied as**: Coated
- **Plug crop time**: 2 to 3 weeks
- **Transplant to finish**: 8 to 12 weeks

- Less long day sensitive, making it easier to produce over a longer period during the year for most growers.
- Features new, unique colours and a much better leaf habit.
- Easier to work with for bouquets or flower arrangements due to smaller leaves.

**Gold**

The deepest yellow colour available on the market. NOTE: More sensitive to Fusarium compared to the rest of the series.

**Orange**

A unique colour to the market that will stir up interest for growers, retailers and florists.

**Pink**

The fastest to flower of the series and the only dark-stemmed variety, with a slightly smaller bloom.

**Red**

The slowest to flower and also a bit shorter compared to the rest of the series.

**Rose**

The tallest of the series, with a more rose colour, bigger flower heads and lighter green stems than Pink. Also slower to flower than Pink.

Find product & growing info at panamseed.com
**SQUASH (ZUCCHINI) Cucurbita pepo**

**Easy Pick Series F1**

- Height: 36 to 52 in./91 to 132 cm
- Spread: 36 to 52 in./91 to 132 cm
- Seed supplied as: Raw
- Days from transplant to harvest: 30 to 35
- Fruit size: Harvest from a very small size with a flower attached, up to 10-in./25-cm fruit.
- **Best for:** Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground, Fresh Market Farmer Protected Culture
- **Plug crop time:** 2 to 3 weeks (direct sow)

- Well-matched, smooth-textured duo offers open habit with nearly no spines on the petioles for painless harvest.
- Simply twist to pick - less scarring and clean harvest mean longer shelf life.
- Parthenocarpic variety - plants will produce fruit without insect pollination.
- Best in-ground.

**New Gold II** Offers improved disease resistance to ZYMV (Zucchini Yellow Mosaic Virus), WMV (Watermelon Mosaic Virus) and PRSV (Papaya Ring Spot Virus).
EGGPLANT 🍆
*Solanum melongena*

**New Gretel F₁**
- **Height:** 36 to 52 in./91 to 132 cm
- **Spread:** 24 to 36 in./61 to 91 cm
- **Seed supplied as:** Raw
- **Days from transplant to harvest:** 55 to 60
- **Fruit size:** 3 to 4 in./8 to 10 cm long (baby size); 4 to 6 in./10 to 15 cm long (full size)
- **Growth:** Indeterminate
- **Best for:** Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground, grown with or without support or trellis
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** 4 to 5 weeks

- Earliest white eggplant is highly productive, producing clusters of glossy mini-fruit that is tender and non-bitter, about 3 to 4 in./7 to 10 cm long.
- Petite, 3-ft./90-cm plants have thornless leaves/calyx for easy, painless harvest; can be grown in-ground or in a large container, with or without support.
- More productive and 5 to 7 days earlier to ripen than O.P. types.
- All-America Selections Winner can be grown in-ground or in a large container, with or without support.

**New Hansel F₁**
- **Height:** 24 to 42 in./61 to 107 cm
- **Spread:** 24 to 36 in./61 to 91 cm
- **Seed supplied as:** Raw
- **Days from transplant to harvest:** 50 to 55
- **Fruit size:** 2 to 3 in./5 to 7 cm long (baby size); 6 to 10 in./15 to 25 cm long (full size)
- **Growth:** Indeterminate
- **Best for:** Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground, grown with or without support or trellis
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** 4 to 5 weeks

- Early-maturing, highly productive black-purple eggplant produces clusters of glossy mini-fruit about 2 to 3 in./5 to 7 cm long.
- Petite, 3-ft./91-cm plants have thornless leaves/calyx for easy, painless harvest and are great for containers.
- All-America Selections Winner can be grown in-ground or in a large container, with or without support.
**TOMATO**
*Solanum lycopersicum*

**New Little Bing F₁**
- **Height:** 18 to 24 in./46 to 61 cm
- **Spread:** 24 to 36 in./61 to 91 cm
- **Seed supplied as:** Raw
- **Days from transplant to harvest:** 60 to 65
- **Fruit size:** 1 in./2.5 cm
- **Growth:** Determinate
- **Best for:** Home gardener container, grown with or without a support or trellis
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** 2 to 6 weeks
- Fruit sets and ripens over a period of a few weeks, allowing harvest of many tomatoes at one time.
- Yields large amounts of flavour-filled, red cherry tomatoes for fresh eating or to add to recipes.
- Can be grown without or without the support of a trellis.

**New Little Sicily F₁**
- **Height:** 18 to 24 in./46 to 61 cm
- **Spread:** 24 to 36 in./61 to 91 cm
- **Seed supplied as:** Raw
- **Days from transplant to harvest:** 60 to 65
- **Fruit size:** 3 to 4 oz./85 to 110 g
- **Growth:** Determinate
- **Best for:** Home gardener container, grown with or without a support or trellis
- **Plug crop time:** 4 to 5 weeks
- **Transplant to finish:** 2 to 6 weeks
- Determinate habit will set the majority of flowers and ripened fruit in a period of a few weeks for a large harvest.
- Produces an abundance of good-tasting, small red slicer tomatoes that are great eaten fresh or used in recipes.
- Compact and sturdy plants can be grown successfully with or without a trellis.

**Little Collection = Big Success!**
Our Little Collection - including the two newcomers here plus popular Little Napoli - features dwarf determinate tomato plants with compact, tidy habits and healthy green foliage that look good in the store and on the patio. At less than 2 ft./61 cm tall, this tasty trio flourishes in mid-size containers, stays a manageable size and produces lots of tomatoes at the peak of Summer.
New Tidy Rose F1

Height: 36 to 60 in./91 to 152 cm
Spread: 24 to 36 in./61 to 91 cm

Seed supplied as: Raw

Days from transplant to ripe fruit: 60 to 65
Fruit size: 5 to 7 oz./140 to 200 g
Growth: Dwarf indeterminate
Best for: Home gardener container, Home gardener in-ground; grown with a support or trellis

Plug crop time: 4 to 5 weeks
Transplant to finish: 2 to 6 weeks

• Popular Tidy Treats has a new pink beefsteak companion – both grow like a determinate but produce like an indeterminate.
• Good in small-space gardens and containers, but unlike other patio types they continue to produce all season.
• Beautiful ribbed, deep pink beefsteaks with rich heirloom flavour are perfect for any culinary use.

PEPPER
Capsicum annuum

New Candy Cane Red F1

Height: 18 to 24 in./46 to 61 cm
Spread: 12 to 18 in./30 to 46 cm

Seed supplied as: Raw

Days from transplant to harvest: 40 to 45 mature green striped; 60 to 65 ripe red
Fruit size (L x W): 3.5 to 4 in. x 1.25 to 1.75 in./9 to 10 cm x 3 to 4 cm
Growth: Indeterminate
Best for: Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground; grown with or without support or trellis

Plug crop time: 5 to 6 weeks
Transplant to finish: 4 to 7 weeks

• Snack pepper with uniquely variegated foliage and striped fruit will stand out on the retail shelf and in the garden.
• Elongated bell-shaped fruit ripens from green and white stripes to solid red; thin walls and crispy texture make it perfect for fresh eating at any stage of ripeness.
• Ideal for growing in-ground or in a container.

New La Bomba II F1

Height: 32 to 40 in./81 to 102 cm
Spread: 12 to 18 in./30 to 46 cm

Seed supplied as: Raw

Days from transplant to harvest: 50 to 55 mature green; 65 to 70 ripe red
Fruit size (L x W): 3 to 3.25 in. x 1 to 1.5 in./7 to 8 cm x 3 to 4 cm
Growth: Indeterminate
Best for: Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground; grown with support or trellis
Level of heat: Medium

Plug crop time: 5 to 6 weeks
Transplant to finish: 4 to 7 weeks

• Upgraded for superior disease resistance to Bacterial Leaf Spot Races 1, 2 and 3, as well as Tobacco Mosaic Virus.
• Performs like original La Bomba – the strong, easy-harvest plants bear very large, high-quality jalapeños with little to no checking.
**New Mad Hatter F₁**

**Height:** 36 to 48 in./91 to 122 cm  
**Spread:** 36 to 48 in./91 to 122 cm  
**Seed supplied as:** Raw  
**Days from transplant to harvest:** 65 to 70 mature green; 85 to 90 ripe red  
**Fruit size (L x W):** 2 to 3.5 in. x 2 to 2.5 in./5 to 9 cm x 5 to 6 cm  
**Growth:** Indeterminate  
**Best for:** Home gardener in-ground, Fresh Market Farmer in-ground; grown with support or trellis  
**Level of heat:** Mild  
**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 4 to 7 weeks

- Eye-catching flattened-disc shaped fruit has lobes or wings, and is crunchy and crisp for perfect fresh eating at mature green or ripe red stage.
- Fruit has a delicate floral scent and rich flavour that intensifies and sweetens as it matures.
- When grown in hot, dry climates, a small percentage of fruit will have a touch of heat close to the seed cavity, but fruit wings will always remain sweet.
- Large-stature plants benefit from a support or trellis.

**New & Cool Heats Up Sales!**

Different. One-of-a-kind. Versatile. That’s what stands out in the garden center and at fresh markets. And that’s why you’ll definitely want to add Mad Hatter to your order - this intriguing specialty/hot pepper ticks the box on all counts: looks, performance, taste and that oh-so-cool factor! This unique hybrid *Capsicum baccatum* is early and very productive, yielding more fruit than similar O.P. varieties. It won’t be long until your customers are asking for Mad Hatter by name!

**New Everleaf Genovese**

**Height:** 18 to 24 in./46 to 61 cm  
**Spread:** 12 to 18 in./30 to 46 cm  
**Seed supplied as:** Raw  
**Days from transplant to harvest:** 30 to 45  
**Best for:** Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground  
**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 3 to 8 weeks

- Compact, well-branched variety with short internodes makes a beautiful columnar plant that stays tidy in both in-ground or container gardens.
- Robust Genovese flavour stands up to cooking – perfect for pesto and adding to sauce.
- Later flowering than most basils allows for very large harvests; can be harvested continually.
- Intermediate resistance to Downy Mildew and standard resistance to Fusarium make it a standout in any garden!
Start Strong, Finish Stronger!
Our new single-species SimplySalad mixes and three of our SimplyHerbs varieties are now supplied as Precision Multi-Pellets. This revolutionary seed technology guarantees that all varieties are present and at the ideal seed count for better germination and better uniformity. Plus, the rounded shape makes hand or mechanical sowing easier and more efficient. The Precision Multi-Pellets flow right through your seeder to create “easy-sow, easy grow” plugs that grow into great-looking, balanced product that sells. One pellet into one plug and you’re good to go!

SIMPLYHERBS
Basil
‘Try Basil’
Sage
New! These three varieties are now available as Precision Multi-Pellets.

For Growers producing Basil, ‘Try Basil’ and Sage, this offers reliable plug production, improved order fill rate, uniform quality in plug trays and improved margin, meaning more sales.

For Hydroponic Growers producing Basil and ‘Try Basil’, this offers a higher percentage of transplantable plugs and a more uniform finished product.

SIMPLY SALAD®

New Arugula
Eruca sativa
Height: 12 to 18 in./30 to 46 cm
Spread: 12 to 18 in./30 to 46 cm
Seed supplied as: Precision Multi-Pellets
Days from sowing to harvest: 30 to 45
Harvestable size: 3 to 4 in./8 to 10 cm (baby leaf); 4 to 10 in./10 to 25 cm (mature leaf)
Best for: Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground, Hydroponic systems
Plug crop time: 2 to 3 weeks
Transplant to finish: 2 to 4 weeks
• Single-species multi-seed leafy green makes a great addition to any garden.
• Rosette-forming plants with no stem-roots stay in a neat, tidy bunch for many weeks before flowering.
• Leaves have a great lobe shape and spicy flavour perfect for salads or braising.

New Cress
Barbarea verna
Height: 6 to 12 in./15 to 30 cm
Spread: 8 to 12 in./20 to 30 cm
Seed supplied as: Precision Multi-Pellets
Days from sowing to harvest: 40 to 60
Harvestable size: 3 to 4 in./8 to 10 cm (baby leaf); 4 to 10 in./10 to 25 cm (mature leaf)
Best for: Home gardener container, Home gardener in-ground, Fresh Market Farmer in-ground, Hydroponic systems
Plug crop time: 3 to 4 weeks
Transplant to finish: 3 to 4 weeks
• Single-species multi-seed leafy green makes a great addition to any garden.
• Rosette-forming plants with no stem-roots stay in a neat, tidy bunch for many weeks before flowering.
• Leaves have a great lobe shape and spicy flavour perfect for salads or braising.
ACCEP TANCE OF TERMS

These terms and conditions shall govern orders for Goods placed by Purchaser. Purchaser acknowledges that these terms and conditions and Seller’s proposal, if any, constitute the entire agreement between Seller and Purchaser and supersede any prior agreements and representations. Any prior or contemporaneous promises, agreements, negotiations or representations whether written or oral or created the custom, usage or course of dealing are also superseded by these terms and conditions. No modification of these terms and conditions shall be effective unless in writing signed by Seller. Placement of the order shall constitute Purchaser’s acceptance of these terms and conditions. All orders are subject to acceptance by Seller at our corporate office. Any different or additional terms in any documents from Purchaser are objected to and rejected, are deemed to materially alter these terms, and will not become part of any contract between Seller and Purchaser.

PRICING

Prices and availability are subject to change without notice. Although Seller tries to assure accuracy, it shall not be held responsible for any typographical or other errors in the price list. Purchaser’s price is determined by referring to the product price and the shipping rate, and additional charges for which Purchaser may qualify. Please contact your sales representative for more information.

TERMS

All payments must be received before Goods are shipped unless otherwise agreed to in writing by Seller. Payment terms can be seen on your Order Confirmation or at the appropriate Terms & Conditions page at panamseed.com for North American, European and International credit-approved customers. A 1% per month finance charge (12% annual rate) will be added to all past due balances at the end of each month. Seller has no obligation to ship any Goods until payment in full is received.

MINIMUM ORDERS

The minimum quantity listed in the price list for each variety is the minimum order for that variety. Seller reserves the right to fill orders using pre-packaged inventory when available.

FREIGHT & HANDLING CHARGES, INSPECTION, DAMAGED GOODS

(a) The freight and handling charge on Purchaser’s invoice covers the delivery cost of the Goods to Purchaser’s destination. Seller will pay to return damaged goods, for replacement Goods or Purchaser will purchase with a credit for damaged Goods if the steps listed in Section (b) below are followed: PURCHASER WILL NOT REFUSE TO RETURN DAMAGED OR DEFECTIVE GOODS, OR THE RIGHT TO FILE A CLAIM IS LOST AND PURCHASER WILL STILL BE LIABLE FOR THE MATERIAL AND THE FREIGHT.

(b) When Purchaser receives shipment, it shall immediately: 1) count all cartons; 2) inspect all cartons for external damage; 3) check all cartons for internal damage; 4) note any damages, shortages, open or resealed cartons on the packing list or receipt; the carrier’s representative must sign the receipt; and 5) open all boxes immediately and inspect any damaged cartons, but not limited to, material shortages. PURCHASER MUST NOTIFY SELLER WITHIN TWO (2) BUSINESS DAYS IF A SHIPMENT IS DAMAGED by calling its Customer Service Representative to report the damage and receive details on what is needed to file a claim. The Goods shall be deemed accepted by the Purchaser on the earlier of (a) notice of acceptance to Seller, or (b) ten (10) days after delivery. Any claims for shortage, non-delivery, damage, or defect which would reasonably be discoverable in the course of such inspection shall be waived unless Purchaser notifies Seller in writing within ten (10) days after delivery of the Goods to which the claim relates.

PACKAGING FEES

All orders will be filled in bulk and/or predetermined package sizes unless special packaging instructions are given. If special packaging is requested, a packaging fee will apply and additional time may be required to complete the order.

PHYSIOLOGICAL CERTIFICATES

Depending on the Goods ordered by Purchaser, and the location of the Purchaser, Phyto-sanitary Certificates may be required to comply with government regulations. If the shipment requires Phyto-sanitary Certificates, an additional cost will be charged.

DELIVERY DATES

Please indicate the required ship date when the order is being placed. No orders can be accepted without a requested ship date. All shipping and delivery dates provided by the Seller are approximate.

DELAYS, SHORTAGES & SUBSTITUTIONS

Seller shall not be responsible for delays in delivery or for losses resulting from such delays. Seller reserves the right to make partial shipment. Seller will not be liable for any delay in performing or for partial or complete failure to perform hereunder if such delay or failure is due to fire, explosion, flood, Act of God, force majeure, accident, war, intervention of governmental authorities, strikers, labor disputes, material shortages, transportation delays, any act or omission of Purchaser, its agents or employees or any party governed by, through or under the control of Seller, or any other cause similar or dissimilar which is beyond Seller’s reasonable control.

INSURANCE

Seller does not insure shipments via Air Mail, but insures all other shipments in transit, in commercially reasonable amounts.

SHIPPING

Any Goods outside of North America will be charged normal carrier rates.

RETURNS

No Goods may be returned without first obtaining written authorization. Authorized returns will only be considered if they are in original, unopened Seller packages. All returns are subject to a 15% service charge. No credit or replacement will be given for Goods returned after nine (9) months from the ship date.

Upon receiving authorization, returns can be shipped to:

West Chicago
PanAmerican Seed
Attn: Returns
622 Town Road
West Chicago, Illinois USA 60185-2698

SEED COUNT

No counts given are approximate quantities due to variation based on a lot by lot comparison. Seed counts may also vary widely between colors and series.

NOTICE REGARDING SEED-BORNE DISEASES

Seller reserves the right to represent regarding the freedom from seed-borne diseases of the seed sold and disclaims any liability relating to such diseases, whether previously known to exist or not identified until such seed is grown.

RESERVATION OF OWNERSHIP

In the event of bankruptcy, products delivered by the Seller remain the property of Seller until the Purchaser has paid the purchase price amount. This reservation of ownership is also extended to claims that Seller may obtain towards Purchaser on account of the Purchaser’s failure to meet their obligations to Sale.

LIMITATION OF WARRANTY

Seller warrants, to the extent required by law, that Goods conform to the description appearing in Seller’s catalog and on container labels, within recognized tolerances. THE FOREGOING WARRANTIES ARE IN LIEU OF AND EXCLUDE ALL OTHER WARRANTIES NOT EXPRESSLY SET FORTH HEREIN, WHETHER EXPRESSED OR IMPLIED BY OPERATION OF LAW OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, SATISFACTORY OR FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT.

LIMITATION OF REMEDY

PURCHASER’S SOLE AND EXCLUSIVE REMEDY SHALL BE REFUND OF THE PURCHASE PRICE. SELLER’S LIABILITY, WHETHER FOR BREACH OF CONTRACT, BREACH OF WARRANTY, NEGLIGENCE, PRODUCTS LIABILITY OR ANY OTHER THEORY OF LIABILITY, IS LIMITED TO THE AMOUNT OF THE PURCHASE PRICE. PURCHASER AGREES THAT IN NO EVENT, REGARDLESS OF THE FORM OF ACTION UPON WHICH RECOVERY IS TO BE BASED, PURCHASER SHALL NOT BE ENTITLED TO, AND SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, INDIRECT OR PUNITIVE DAMAGES INCLUIDING, BUT NOT LIMITED TO, LOSS OF PROFITS OR REVENUES.

MANDATORY ARBITRATION

ANY CLAIM WHICH PURCHASER MAY HAVE AGAINST SELLER ARISING OUT OF OR RELATING TO THE SALE OF THE GOODS HEREBY MUST BE BROUGHT IF AT ALL WITHIN TWELVE (12) MONTHS OF THE DELIVERY OF THE GOODS WHICH ARE THE SUBJECT OF THE CLAIM AND SHALL BE SETTLED BY BINDING ARBITRATION IN ACCORDANCE WITH THE COMMERCIAL ARBITRATION RULES OF THE AMERICAN ARBITRATION ASSOCIATION, SAID ARBITRATION TO BE HELD IN COOK OR DUPAGE COUNTIES, ILLINOIS.

GOVERNING LAW, JURISDICTION & VENUE

The laws of the state of Illinois, including but not limited to the Uniform Commercial Code as adopted therein, shall govern all matters arising out of or relating to Seller’s sale of merchandise. ANY DISPUTE NOT SUBJECT TO ARBITRATION AND ANY ACTION TO ENFORCE AN ARBITRATION AWARD ARISING OUT OF OR RELATING TO THE SALE OF MERCHANDISE HEREUNDER SHALL BE MAINTAINED IN THE STATE OR FEDERAL COURTS LOCATED IN DUPAGE OR COOK COUNTIES, ILLINOIS, AND PURCHASER SUBMITS TO THE JURISDICTION OF AND VENUE IN SAI COURTS.

INDEMNITY

By accepting the Goods, Purchaser agrees to defend, hold harmless, Seller, its affiliates, successors and assigns from and against any claim or liabilities, claims, demands, damages, losses and expense (including attorney’s fees) asserted by any or all transferees of such Goods or users of the products of such Goods (i) arising from any act or omission of Custom, its employees or agents, or (ii) who were not notified by Purchaser in writing of Limitation of Warranty, Limitation of Remedies, Governing Law, Jurisdiction and Venue, and Notice Regarding Seed-Borne Diseases, in language substantially equivalent to that contained in these Terms and Conditions of Sale.

TRADEMARKS

Trademarks are and shall remain the property of Ball Horticultural Company, unless otherwise indicated. Nothing herein shall grant Purchaser a license to use any such trademark.

SALE LIMITATIONS

PanAmerican Seed products are not available for sale in and may not be resold into Australia, New Zealand, Korea, Brazil, and South Africa. The Company’s Products may not be sold, diverted, transferred or re-exported, directly or indirectly, to any individual, entity, or destination that is subject to U.S. or United Nations sanctions programs or embargoes (including, but not limited to, OFAC sanctions programs and those listed on OFAC’s “Specially Designated Nationals” list) without an appropriate export license.

IMAGES

High and low-resolution digital images are available, subject to request. Please contact photos@ballhort.com or Fax: +1 (0) 630 562-7887. Copyright images from Ball Horticultural Company products. The correct marketing name as listed on images provided must be used in connection with any reproductions. Images may not be licensed or resold. Any unauthorized use is prohibited.
