

Cut Flower Dahlia Liners

2022

Ball[®]Seed. is proud to present the Karma Dahlia[®] Series along with Café au Lait and Moon Lady, a line of **vegetatively propagated** dahlia's from **syngenta.flowers**. Karma Dahlia[®] cuttings are **virus-indexed** and come from a **certified, clean mother stock** program resulting in faster and higher production.

The Karma Dahlia[®] Series is characterized by its strong, uniform stems, upright flowers, long flowering period, and high productivity. These dahlias are long day plants requiring 14 hours of light per day for flower induction. The series is suited for both indoor and outdoor production. The Karma Dahlia[®] series comes in 10 different colors. Depending upon where the Karma Dahlias[®] are grown as cuts, 6 to 14 stems per square foot can be expected.

These liners are produced by the following growers. **Order in full box quantities.**

PROGRAM DETAILS:

Gro 'n Sell in Pennsylvania Ship weeks 17 and 19 *only*
Split 102 tray (51 plants per variety, per tray) 6 trays per box

Dahlia Liners usually cost less, and are easier to plant than tubers. Each liner will produce a full size plant, often blooming earlier than tubers planted at the same time.

If you haven't grown cut flower dahlias from liners in the past, give them a try this year so you can see for yourself the benefits of dahlia liners.

This series is a winner and is a great return of your investment! You will be excited to grow the Karma Dahlias[®] year after year.

NOTE: These dahlia varieties are Patented. Propagation is prohibited. Growers may not root additional cuttings.

Order or connect with your Ball Seed or Ball ColorLink[®] sales representative, contact customer service at 800 879-BALL or order at ballseed.com/webtrack today.
