NEW Armageddon Hot Pepper
A known and trusted brand since 1876, Burpee® continues to bring the best in vegetables, herbs and flowers. We start with quality plants that have been trialed across the country to be big performers and ensure optimal growth. Among our great-tasting and great-performing vegetables, fruits and herbs, you'll find disease-resistant varieties that can stand up to tough conditions and keep producing large harvests.

Our goal is to offer new, improved or tried-and-true vegetables, fruits, flowers and herbs that meet and exceed consumers’ changing gardening interests. New 2021 varieties that will grab attention at retail include Rutgers DMR Obsession Basil, Sweet Slaw and Sweet Thang Cabbage, Armageddon Hot Pepper, Jalapeño Sweet Poppers Sweet Pepper and BOOST™ Tasti-Wee® Small-Fruited Tomato. Find out more about these exciting introductions in the listings ahead.

We also work hard to make Burpee the easiest brand for our customers and consumers to choose. Color-coded tags and POP are the new way to find your favorite tomato, pepper or other vegetable, herb and flower varieties. Tomatoes have red tags, sweet peppers are orange and hot peppers are purple. Herbs are dark blue, small fruits are raspberry and all other vegetables have yellow tags, with organic vegetables and herbs called out on green tags.

As always, Burpee provides free POP. We have new tomato and pepper banners available, as well as a banner that visually explains our new color-coding program.

Visit burpeehomegardensbrand.com to find out more about the Burpee branded program, and see all the great-tasting, top-performing varieties from Burpee plants.
Inspire consumers with these enticing, new 2021 varieties that are bursting with flavor, high performance and outstanding traits. All are **Exclusively Burpee**, which means they are unique varieties that you can only get from Burpee.

See what the buzz is about! These products are already getting rave reviews and are destined to become top sellers.

**CABBAGE**

**New Sweet Slaw** Available exclusively through Ball Seed.

This sweet, green cabbage has a smooth, dense, cone-shaped head perfect for slicing and shredding. With a long harvest window, you’ll get to enjoy more of this sweet, green cabbage. It is resistant to cracking, and is great for sauerkraut and cole slaw.

**New Sweet Thang** Available exclusively through Ball Seed.

This non-heading cabbage offers thick, sweet-tasting white veins with attractive dark green leaves. Features a uniform habit and short core. Better tasting than collards or kale.

**CUCUMBER**

Types:
M: Monocious plants produce separate male and female flowers on the same plant.
G: Gynoecious plants produce only female flowers for higher and more concentrated yields.

**PICKLING CUCUMBER**

**Meatball** Vegetarians and foodies will love scooping out the flesh of this eggplant to make tasty meatless “meatballs.” The fruit has a high moisture content to slow oxidization, so it won’t turn brown quickly and stays fresher looking for longer. Low seed count means the fruit is less bitter.

**White Star Hybrid** Tall, vigorous plants with large yields of unique, tasty, 5 to 7-in. (13 to 18-cm) fruit that can be picked early or left to mature.

*Based on cucumbers grown under our trial conditions, harvested when ready to eat and peeled. Actual harvest results may vary.

Order at ballseed.com/webtrack, 800 879-BALL or fax: 800 234-0370
### Annual Herbs

**Basil Pesto Party** The latest-flowering basil from seed. Well-branched and full, with an abundance of leaves that offer good sweet Italian basil flavor. Perfect for fresh pesto and salads. No pinch and no PGRs required. Offers intermediate resistance to downy mildew.

<table>

### Lettuce & Salad Greens

- **Gourmet Blend** Flavorful mix includes Grand Rapids, Royal Oak Leaf, Red Salad Bowl, Salad Bowl and Ruby. Fast-growing, performs best in cool weather.
  - Approximate Seed Count/lb.: 504,000
  - Days: 45
  - Type: Assorted

- **Healing Hands Salad Mix** Part of the BOOST Antioxidant Collection. Available as Ball Premier Line® seed. Extra-nutritious mix can produce 20% more lutein, 30% more beta-carotene, 30% more total carotenoids and 70% more anthocyanins than other blends.*
  - Approximate Seed Count/lb.: 17,700
  - Days: 42
  - Type: Assorted

- **Heatwave Blend** Heat-loving blend includes green and purple-red crispy types, romaines, oak-leafed, crisped-frilled, looseleaf and fern-leafed lettuces.
  - Approximate Seed Count/lb.: 501,000
  - Days: 50-60
  - Type: Assorted

- **Little Caesar** Tall heads with sweet, crisp leaves are perfect for Caesar salads. Features green outer leaves and golden blanched inner leaves.
  - Approximate Seed Count/lb.: 470,000
  - Days: 70
  - Type: Romaine

### Okra

**Baby Bubba** A cool dwarf plant for small spaces! Grows half the height of standard okra plants, but with full-sized fruit. This narrow, upright plant grows well in 12 to 14-in. (30 to 36-cm) containers for the patio. Takes up less space in your garden while still producing plenty of tasty okra.

<table>
<thead>
<tr>
<th>Approximate Seed Count/lb.</th>
<th>Days</th>
</tr>
</thead>
<tbody>
<tr>
<td>6,800</td>
<td>53</td>
</tr>
</tbody>
</table>

### Pea

**Masterpiece F1** A triple-treat: parsley-like tendrils, peas and pods are all edible and delicious. Ideal for small-space gardens, planters, window boxes. Best trellised. Resists Fusarium and powdery mildew.

<table>
<thead>
<tr>
<th>Approximate Seed Count/lb.</th>

Mardi Gras Fun Series F1
The perfect snack-sized peppers feature eye-catching colors that beg to be eaten; all colors can be grown together in one large container for a fun patio display. Varieties are sold separately. • Orange • Purple • Red • Yellow

Orange: 72,000 Purple: 67,000 Red: 75,000 Yellow: 61,000
65-80 Varies by variety 3.5 x 1.5 in. (9 x 4 cm) –

Thunderbolt F1
Huge Marconi peppers have good flavor and texture, thick walls and satisfying crunch. High-yielding plants work in large containers, gardens.
67,000 65-80 Green/red 13 x 4 in. (33 x 10 cm) TMV, TSWV

New Armageddon F1
The world’s first F1 hybrid super-hot chili measuring at 1.2 million Scovilles. This gives a fantastic grower advantage in terms of improved plant vigor and fruit uniformity. It is the earliest maturing super-hot variety, at least 14 days earlier than the competition.
90,000 95-100 Green/red 1.6-2 x 1.2-1.6 in. (4-5 x 3-4 cm) –

Hot Lemon
Heirloom pepper from Ecuador is as hot as any Cayenne, but with a unique flavor and aroma. Flavorful when green or ripe, best used fresh in sauces or dried.
95,000 70-80 Green/yellow 3-4 x 0.75 in. (7-10 x 2 cm) –

Ristra Cayenne II
Available as Ball Premier Line® treated seed. Tapered fruit has a twisted shape and is thin-walled and two-celled. Get more peppers with less heat and a mild spicy flavor. This plant also produces a better canopy with the potential for higher yields than original Ristra Cayenne.
54,000 75-90 Green/red 9-12 x 1.5 in. (23-30 x 4 cm) –

Dragon Roll
Available as Ball Premier Line® seed. Gaining the ranks of culinary excellence, Shishito peppers are on menus and at farmers markets across the nation. These 3 to 5-in. (8 to 13-cm) peppers top out at about 200 Scovilles, making them more mild than jalapeno peppers, but letting you know you got some heat. Best when picked green.
71,000 67 Green 3-5 in. (8-13 cm) –
### JALAPEÑO PEPPER

- **Big Guy Jalapeño** One of the biggest jalapeños in our offering, perfect for pickling, stuffing and slicing.  
  **Approximate Seed Count/lb.** 54,000  
  **Days** 69  
  **Color** Green  
  **Size (L x W)** 5 x 1 in. (13 x 3 cm)  
  **Disease Resistance** TMV, PVY

- **Jalapeño Gigante II Available as Ball Premier Line® seed.** Big, delicious peppers for salsa or stuffing. Easy to grow and harvest throughout the Summer when they’re green or red.  
  **Approximate Seed Count/lb.** 70,000  
  **Days** 80  
  **Color** Green/red  
  **Size (L x W)** 5 x 1 in. (13 x 3 cm)  
  **Disease Resistance** –

**TOMATO**

All tomatoes are sold as defuzzed seed. Many tomatoes are also available as easy-to-sow Ball Premier Line® seed.

**Growth:**
- **I:** Indeterminate (pole or stake type). Blossoms and fruit develop progressively, and the harvest lasts several months; best when staked.
- **D:** Determinate (bush type). Blossoms and fruit develop on the vine at the same time. The harvest time is short – 7 to 10 days. Plants are self-topping and seldom need staking; best when caged.
- **Semi-D:** Semi-determinate. Compact plants that continue to fruit several times in the Summer.

PETUNIA  
*P. x hybrida*

**Paparazzi® Series**

- **Height:** 10 to 15 in. (25 to 38 cm)
- **Spread:** 10 to 15 in. (25 to 38 cm)
- **Flower size:** 3.5 to 4 in. (9 to 10 cm)

Available as Ball Premier Line® seed. Gardeners will go wild for these big-bloomed grandiflora stars in exciting colors – now you can offer decorator options in a consumer favorite class! Suitable for pots, combo planters and baskets, this star-quality collection is a must for today’s trend-conscious shopper.

- **Fashion Cherry**
- **Glamour Pink**
- **Glitz Yellow**
- **Midnight Blue**
- **Palladium Purple**
- **White Diamonds**

ZINNIA  
*Z. elegans*

**Champagne Toast**

- **Height:** 14 to 18 in. (36 to 46 cm)
- **Spread:** 10 to 12 in. (25 to 30 cm)

Available as Ball Premier Line® seed. Large, double pink blooms bring an elegant touch to mixed containers and gardens, as well as indoor vase arrangements. A low-water, easy-care variety.

**White Wedding**

- **Height:** 14 to 18 in. (36 to 46 cm)
- **Spread:** 10 to 12 in. (25 to 30 cm)

Available as Ball Premier Line® seed. Soft, double white blooms add a little romance to Summer containers and landscapes, and thrive all season long without a trace of maintenance or water. Nice cut flower, too.

2021 FLOWERS
