

Event

ProGreen EXPO

Date: 2/22/2021 - 2/25/2021

Location: Virtual Experience

ProGreen EXPO is the only green industry conference in the Rocky Mountain Region of its kind. More than 6,000 green industry professionals gather every year in Denver to gain vital knowledge and skills to improve their businesses.

In 2021, the event evolves into the ProGreen EXPERIENCE, an online-only committed to continuing the tradition of providing education and connections to the Rocky Mountain green industry community.

Ball Seed is a sponsor of the event, February 22-25. Look for speaker-host Bill Calkins in his educational session titled "COVID-19 Take Aways: The Changing Customer Base and How to Keep Them Gardening".
