

BEGONIAS

IN EVERY STYLE

PanAmerican Seed®

BEGONIAS FOR EVERY NEED IN ANY SEASON

Look to PanAmerican Seed® for your complete interspecific begonia program, starting with fastest-to-market **Hula™** and **BabyWing®** for day-neutral growing, **Megawatt™** for big Spring sales and main-season **Dragon Wing®** to perform all Summer long in gardens and professional landscaping.

This easy guide will help you identify the differences between each of our begonia series and select the best begonia for your specific application, climate, timing, habit and vigor.

Great for gardeners and landscapers, these standouts deliver masses of color, big vigor and long blooming from Spring through Fall.

Dragon Wing®

Megawatt™

Hula™

BabyWing®

DRAGON WING®

Dragon Wing Red

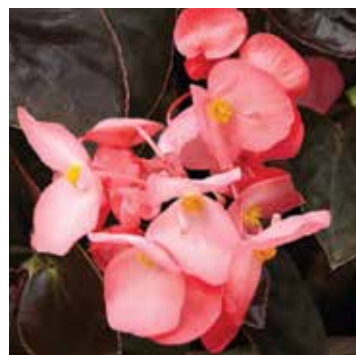

Dragon Wing® Series F1

Begonia interspecific

- Dragon Wing's unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and commercial landscape plantings.
- Angel wing leaves and large blooms provide eye-catching appeal.
- Easy to grow from pelleted seed, it surpasses vegetative varieties for branching, vigor and flower power.
- It features best-in-class, bulletproof performance, fast fill-in and an easy-care nature.

MEGAWATT™

Megawatt Pink Bronze Leaf

Megawatt Pink Green Leaf

Megawatt Red Bronze Leaf

Megawatt™ Series F1

Begonia interspecific

- Striking, non-stop flowers keep these plants covered in masses of color from Spring to Fall, even through heat and drought.
- Sturdy flower stems hold flowers above the leaves for an impressive show.
- It looks amazing in flower at retail and stands out in landscapes, baskets, big tubs and borders.

HULA™

Hula White

Hula Bicolor Red White

Hula Blush

Hula™ Series F1

Begonia interspecific

- This unique, spreading-type begonia produces lots of branches and stays covered in flowers.
- It gives landscapers an instant performance advantage, with masses of flowers showing on top, providing great color impact.
- The series is daylength neutral and it is the earliest interspecific begonia to flower, with timing similar to BabyWing.
- Hula starts to spread at an early stage, creating a high-quality, attractive plant that is covered with blooms at retail and looks fantastic in hanging baskets and smaller containers.

BABYWING®

BabyWing Bicolor

BabyWing White Bronze Leaf

BabyWing Red

BabyWing Red Bronze Leaf

BabyWing® Series F1

Begonia interspecific

- BabyWing is not daylength sensitive, so it is one of the first interspecific begonias to market.
- Its upright, mounded, controlled plants stand up to shipping for an outstanding show at retail.
- The plants provide easy, season-long performance in landscapes and containers.
- It beats the heat and handles stressful conditions like a champ.
