

## Perennial #70

Touch of Class Polemonium adds class to this container and “behaves” itself spring through fall by playing well with others, as can be the challenge in container design in picking the right inputs. The early blue-violet flowers complement the design with a foliage focus the rest of the season. The white and the blue-green foliage is set off well by the dark colors of the Harvest Burgundy Heuchera and the Ajuga Chocolate Chip, which trails neatly as the summer progresses. This design can be changed to a white theme by using Stachys Silver Carpet instead of the heuchera and Ajuga Burgundy Glow with its silver color!
